My Darkest Years Jul 08 2020 Born in Berlin in 1922, James Bachner was a German Jew
during the darkest days of the Third Reich. Once a happy child in a well-to-do German family,
as the years passed Bachner faced first ridicule and persecution, then imprisonment and
deprivation. Attributing his survival to a combination of strength and being in the right place at
the right time, Bachner ' s memoir is a poignant and often horrific account of Jewish struggles
during the days of World War II. Beginning with his idyllic childhood, Bachner expresses the
range of emotions he experienced as the Nazis transformed his homeland into a nation where
he and his fellow Jews were no longer welcome. He describes the volatile political atmosphere
and the fears inspired in all Germans by tales of the concentration camps. In addition, he tells
of the belief many Jews held that the West would step in and put an end to Hitler ' s reign. The
work then details the realities of life in a concentration camp. The end of the war, Bachner ' s

reunion with his remaining family members and his eventual relocation to America are also discussed.

Two Sisters and a Piano and Other Plays Aug 09 2020 Nilo Cruz is the most produced Cuban American playwright in the United States and was the first dramatist of Hispanic descent to receive the Pulitzer Prize. In his plays, Cruz almost always journeys back to Cuba, even when the play is not set there. Cruz is a sensualist, a conjurer of mysterious voyages and luxuriant landscapes. He is a poetic chronicler, a documentarian of the presence of Latin people in American life. He conveys the strength and persistence of the Cuban spirit through a wholly dramatic imagination. This volume also includes the one-act play, *Capriccio*. *Two Sisters and a Piano* “ Cruz ’ s tightly constructed study of incarcerated sisters provides the spine for an authentic study of oppression that bends but never breaks the human spirit. ” —Variety *Beauty of the Father* “ He is that rare American scribe who embraces the role of stage poet and the legacy of Tennessee Williams. ” —The Seattle Times *Hortensia and the Museum of Dreams* “ Cruz explores all kinds of loss . . . lost childhood, lost freedom, lost innocence. Yet he infused *Hortensia* with joy, with desire, with humor and hope and healing. ” —The Miami Herald *Lorca in a Green Dress* “ Like Lorca, Cruz is a lyrical writer in whom the surreal is grounded in the musical world of the senses . . . it is fresh, wonderful and dazzling. ” —Mail Tribune (Oregon) Nilo Cruz is the author of many plays, including *A Park in Our House*, *A Bicycle Country*, *Dancing on Her Knees*, *Night Train to Bolina* and other works. He is a recipient of numerous awards, including the Pulitzer Prize for Drama, the Alton Jones Award and the Kesselring Prize. Mr. Cruz is a professor at the Yale School of Drama. He resides in New York City and is a New Dramatists alumnus.

McGuffey's First Eclectic Reader, Revised Edition Dec 25 2021 McGuffey Readers were a series of graded primers for grade levels 1-6. They were widely used as textbooks in American schools from the mid-19th century to the mid-20th century, and are still used today in some private schools and in homeschooling. It is estimated that at least 120 million copies of McGuffey's Readers were sold between 1836 and 1960, placing its sales in a category with the Bible and Webster's Dictionary. Since 1961, they have continued to sell at a rate of some 30,000 copies a year. Only the Ray's Arithmetic series (1834-1913) matched it in popularity, written by a colleague of McGuffey's and begun in 1834.

Wembley and Beyond Feb 01 2020 It started on a cold, frosty morning in 1951 in Christchurch, New Zealand, with a seventeen-year-old-boy, a crate of sheeps' kidneys and a dream. The boss of the city's Belfast meatworks, had arrived an hour early to set up for the day, when he noticed one of his workers packing up a crate on the countertop. The young lad was battling to move it so the boss went over to help. When asked what time he'd started, the boy replied 'Five o'clock this morning'. Stunned, and amused, the boss told him he'd be earning a good bonus at the end of the week, and wondered aloud what he'd spend it on. But the boy knew, and immediately replied, 'I'm going to race speedway in England.' And he did. That boy was Barry Briggs, and it was just the start of his great adventure. Little did he know he was soon to become the legendary speedway racer more commonly known as Briggo, and later as Barry Briggs MBE. From dangerous encounters in the jungles of Liberia to teaching Steve McQueen to slide a speedway bike, Briggo's incredible story is one of strength, determination and a life lived firmly in the fast lane.

The Return of the Mother Jun 18 2021 Adapted from a series of lectures on the historical basis and current resurgence of the sacred feminine, given by Andrew Harvey at the California Institute of Integral Studies in Spring 1994, The Return of the Mother is a profound journey into the heart of the Divine Mother. In this comprehensive and groundbreaking work, mystical scholar Andrew Harvey unearths traces of the sacred feminine in major world religions—Hinduism, Islam (Sufism), Buddhism, Taoism, and Christianity—and in aboriginal and indigenous wisdom traditions. Harvey presents a scathing critique of the patriarchal distortions in religious history and doctrine that have obscured full knowledge of the Divine

Mother, and shows how to reintegrate this vital aspect into the spiritual consciousness of humankind. The Return of the Mother offers a radical new perspective, balancing the historical overemphasis on transcendence by honoring the immanence of the divine in passionate engagement in the world. Only by cultivating a direct, respectful relationship with the transformative power of the sacred feminine can we alter our disastrous attitude of dissociation from nature, the body, sexuality, and the details of human life, and generate the energy and compassion needed to reverse the course of destruction we have set the planet—and all of life—hurtling toward. In lively question-and-answer sections, Harvey further illuminates these vital issues and takes a strong stand against our dependence on “ gurus ” and “ masters, ” proposing instead an egalitarian model of spiritual community based on intimate groups of mutually supportive guides and friends. The Return of the Mother is an eloquent and passionate call for all of us to rediscover and reclaim an authentic and empowering relationship to the divine, and recreate a sacred life-in-the-world.

Multimedia '96 Mar 28 2022 In the last few years multimedia hardware and applications have become widely available on PC and workstations. Moreover, through the tremendous development and the wide usage of the World Wide Web multimedia applications have been brought over the network to many people. This book presents the results of the fourth in a well established series of international workshops on Multimedia organized by the EUROGRAPHICS Association, and held from May 28 to 30, 1996, in Rostock, Germany. The workshop had the special topic Multimedia on the Net and was the follow up of the EUROGRAPHICS Symposium and Workshop on Multimedia held in Graz in June 1994. The workshop program consisted of an invited keynote speech and five technical sessions. The fifteen contributions selected for this volume treat topics of particular interest in current research and address actual problems of the use of multimedia in distributed applications over the network. According to the technical sessions they can be roughly structured in the parts concepts for handling multimedia data, still and motion pictures on the net, WWW and multimedia, collaborative multimedia, and multimedia and education. Concepts for handling multimedia data are addressed in two contributions. The first treats a frame based presentation model for distributed information systems (Kirste), the other one presents a temporal logic formalism for specifying navigational transformation in hypermedia applications (Mere et al.).

Agent-Based Modelling of Socio-Technical Systems Jun 26 2019 Decision makers in large scale interconnected network systems require simulation models for decision support. The behaviour of these systems is determined by many actors, situated in a dynamic, multi-actor, multi-objective and multi-level environment. How can such systems be modelled and how can the socio-technical complexity be captured? Agent-based modelling is a proven approach to handle this challenge. This book provides a practical introduction to agent-based modelling of socio-technical systems, based on a methodology that has been developed at TU Delft and which has been deployed in a large number of case studies. The book consists of two parts: the first presents the background, theory and methodology as well as practical guidelines and procedures for building models. In the second part this theory is applied to a number of case studies, where for each model the development steps are presented extensively, preparing the reader for creating own models.
