A Colombian cartel boss indulges all of his most sadistic whims unaware that a threat far greater than zombies is headed toward his jungle fortress. A Rwandan doctor must overcome the crippling fear that has plagued him all his life as he stumbles through the African bush. And a pregnant woman barricaded in an American big box store discovers that the greatest threat to her life – and her unborn child's – might not be undead. Benjamin Percy (Wolverine, X-Force) once again pens this global look at the zombie apocalypse, now joined by artist Juan Jose Ryp (Britannia) and colorist Frank Martin (Infinity Wars).

Cochrane Handbook for Systematic Reviews of Interventions Nov 29 2019 Healthcare providers, consumers, researchers and policy makers are inundated with unmanageable amounts of information, including evidence from healthcare research. It has become impossible for all to have the time and resources to find, appraise and interpret this evidence and incorporate it into healthcare decisions. Cochrane Reviews respond to this challenge by identifying, appraising and synthesizing research-based evidence and presenting it in a standardized format, published in The Cochrane Library (www.thecochranelibrary.com). The Cochrane Handbook for Systematic Reviews of Interventions contains methodological guidance for the preparation and maintenance of Cochrane intervention reviews. Written in a clear and accessible format, it is the essential manual for all those preparing, maintaining and reading Cochrane reviews. Many of the principles and methods described here are appropriate for systematic reviews applied to other types of research and to systematic reviews of interventions undertaken by others. It is hoped therefore that this book will be invaluable to all those who want to understand the role of systematic reviews, critically appraise published reviews or perform reviews themselves.
