The King Over the Water Jun 18 2021 This is the first modern history for general readers of the entire Jacobite movement in Scotland, England and Ireland, from the 'Glorious Revolution' of 1688 that drove James II into exile to the death of his grandson, Cardinal Henry, Duke of York, in 1807. The Battle of Culloden and Bonnie Prince Charlie's flight through the heather are well known, but not the other risings and plots that involved half of Europe and even revolutionary America. Based on the latest research, The King over the Water weaves together all the strands of this gripping saga into a vivid, sweeping narrative, full of insight, analysis and anecdote. 'Few causes have aroused a more gallant response from the peoples of these islands than the Honest Cause', writes Desmond Seward, 'whether they were fighting for it at Killiecrankie, Prestonpans or Culloden, at the Boyne, Aughrim or Fontenoy, or dying for it on the scaffold'.

The Guggenheim Mystery Feb 12 2021 My name is Ted Spark. I am 12 years and 281 days old. I have seven friends. Three months ago, I solved the mystery of how my cousin Salim disappeared from a pod on the London Eye. This is the story of my second mystery. This summer, I went on holiday to New York, to visit Aunt Gloria and Salim. While I was there, a painting was stolen from the Guggenheim Museum, where Aunt Gloria works. Everyone was very worried and upset. I did not see what the problem was. I do not see the point of paintings, even if they are worth £9.8 million. Perhaps that's because of my very unusual brain, which works on a different operating system to everyone else's. But then Aunt Gloria was blamed for the theft - and Aunt Gloria is family. And I realised just how

important it was to find the painting, and discover who really had taken it.

Also featured are 38 maps, including detailed city maps for all 18 provincial capitals, plus a specific section devoted to the sometimes-tricky process of applying for a visa. Bradt's Angola is written by expert author Oscar Scafidi who lived and worked in Angola for five years, has travelled to all the country's provinces, and who has successfully completed a record-breaking kayak trip along the length of Angola's Kwanza River. Thanks to his knowledge, Bradt's Angola is ideal for everyone from independent surfers and bird-watchers on organised tours to fishing enthusiasts, conservationists, surfers, NGO workers and overlanders, not to mention adventurous travellers simply wanting to discover this intriguing country. Angola continues to change at a rapid pace and offers everything from colonial Portuguese ruins to \$100-a-plate sushi bars, landscaped waterfronts to grand public buildings, Portuguese and Brazilian heritage to frontier diamond towns, tropical rainforests to desert, and relaxed coastal resorts on 1,000km of unspoiled beaches. It's also the site of the UNESCO World Heritage listed Mbanza Kongo, once the centre of power for the Kilukeni dynasty, who founded the city almost 100 years before the arrival of the Portuguese. Whether wildlife watcher or surfer, business traveller or pioneering adventurer, Bradt's Angola provides all the information you will need to get the most out of this vast country.

Future of Coal in India Aug 28 2019 Mark Twain observed, "I'm in favour of progress; it's change I don't like." Coal dominates Indian energy because it's available domestically and cheap (especially without a carbon tax). If the global focus is on the energy transition, how does India ensure a just transition? Managing winners and losers will be the single largest challenge for India's energy policy. Coal is entrenched in a complex ecosystem. In some states, it's amongst the largest contributors to state budgets. The Indian Railways, India's largest civilian employer, is afloat because it overcharges coal to offset under-

recovery from passengers. Coal India Limited, the public sector miner that produces 85% of domestic coal, is the world's largest coal miner. But despite enormous reserves, India imports about a quarter of consumption. On the flip side, coal faces inevitable pressure from renewable energy, which is the cheapest option for new builds. However, there is significant coal-based power capacity already in place, some of which is underutilized, or even stranded. Low per-capita energy consumption means India must still grow its energy supply. Before India can phase out coal, it must first achieve a plateau of coal. How this happens cost-effectively and with least resistance isn't just a technical or economic question, it depends on the political economy of coal and its alternatives. Some stakeholders want to kill coal. A wiser option may be to first clean it up, instead of wishing it away. Across 18 chapters, drawing from leading experts in the field, we examine all aspects of coal's future in India. We find no easy answers, but attempt to combine the big picture with details, bringing them together to offer a range of policy options.

Old Muslim Calendars of Southeast Asia Mar 16 2021 It has been said that "a modern arrogance has blocked our access to the history of the Muslim calendar in Southeast Asia." Without at least the outlines of that history, we simply do not understand the basis of dates found in Malay sources. Also, without a history of Malay calendars we are denied an understanding of the context from which the Javanese Muslim calendar arose. This volume, the result of combining empirical evidence with a sound understanding of the structural requirements of calendar-making, and of the mechanisms through which these needs could be met, for the first time explains how these old octaval calendars actually worked. It traces the history of Muslim calendars in Southeast Asia, and attempts to put them into their historical and cultural context. Understanding the old calendars will at last throw light on a number of essential aspects of older Malay science and culture. An accompanying interactive CD-ROM presents the reader with a tool for converting Malay and Javanese dates, with access to the range of variant calendars.

Training to Win Aug 01 2022 Gold medal winning coach, Jon Emmett works with sailors and coaches around the world and is frequently asked things like: 'What is a good exercise to improve this?' 'Why do we do this exercise?' 'How do we make the exercise more / less difficult?' This book is the answer to those frequently asked questions. It contains training exercises for each element of a sailing race. As well as describing and illustrating the exercise, it tells you what skills you are trying to improve, why and how to make the exercise harder or easier. The book will enable coaches to deliver better, more focussed, training sessions, but it will also help sailors who don't have the benefit of a coach to practise and improve their sailing skills. The exercises are marked as to whether they are suitable for solo boats, groups of boats or those with a coach boat. As Aristotle said: "We are what we repeatedly do. Excellence then is not an act, but a habit." Armed with this book, get out, do some training and improve your sailing skills!

Sail Away Nov 04 2022 The phone hasn't rung for months. Suzy Marshall is discovering that work can be sluggish for an actress over sixty - even for the former star of a 1980s TV series. So when she's offered the plum role of Lady Bracknell in *The Importance of Being Earnest* in Zurich, it seems like a godsend. Until, that is, the play is abruptly cancelled in suspicious circumstances, and Suzy is forced to take a job on a cruise ship to get home. Meanwhile Amanda Herbert finds herself homeless in rainy Clapham. Her flat purchase has fallen through, and her children are absorbed in their own dramas. Then she spots an advertisement for an Atlantic cruise, and realises a few weeks on-board would tide her over - and save her money - until the crisis is solved. As the two women

set sail on a new adventure, neither can possibly predict the strange characters and dodgy dealings they will encounter - nor the unexpected rewards they will reap.

***The Happy Hooper Sep 29 2019* If you've been enjoying her latest novels *Sail Away* and *Nice Work (If You Can Get It)*, do not miss Celia Imrie's fantastic original memoir *The Happy Hooper*. 'I've always been wilful ... I've always been stubborn and always determined.' One of our best-loved actresses, Celia Imrie would rather have been a dancer. As a child she planned to join the Royal Ballet and marry Rudolf Nureyev. Now she has become one of our finest and funniest performers, on stage, TV and screen - adored for her roles in *Acorn Antiques* and *Dinnerladies*, as well as films including *Calendar Girls* and *Nanny McPhee*. In her hugely entertaining autobiography, Celia Imrie recounts a life hurtling (not always intentionally) into adventures both on stage and off. Whether it's finding herself on stage with half the scenery stuck to her cardigan, or being kidnapped on her way to location. Somehow she emerges from the chaos that can lie in her wake almost unscathed. Acting, she admits, is a mad, chaotic profession and it is her refreshing honesty, sense of mischief, fun and almost unruffled determination in the face of it all that makes this autobiography a never-ending delight.**

***Square Rigger Days Aug 21 2021* There are few books that describe accurately life on board sailing ships in the last days of sail, from the 1860s to the First World War; the romantic image conjured up by many who wrote from a safe distance belies the harsh realities which were a sailorman's lot. Domville-Fife, in collecting together the personal stories of seamen while they were still alive, was able to present a truer picture of the tough last days of sail. Long voyages on board nineteenth-century sailing ships were marked by isolation, boredom, and miserable living conditions that taxed the endurance of men already hard pressed by the gruelling and dangerous nature of shipboard work. While some**

were attracted to a life of adventure most simply went to sea for a living, and a meagre one at that. They experienced neither the excitement of life on the crack clippers of the earlier decades nor the safety of the steamships; they were caught in the limbo of a dying profession where poor pay, discontinuous employment, prolonged isolation from family and physical hardship were the norm. No wonder that murder, mutiny, starvation and shipwreck appear in the memoirs gathered here. Domville-Fife surely did future generations a great service by piecing together this reality. First published in 1938, these memoirs are now available again in this superbly presented new edition with a new selection of stunning photographs and a fascinating introduction on life at sea in the dying world of sail. A wonderful read for all enthusiasts and historians of the merchant service in the days of sail.

Australian Animal Law Mar 28 2022 Australian Animal Law: Context and Critique provides comprehensive information about the legal and regulatory framework governing the interaction between humans and animals. By relating specific content areas to the discipline's broader characteristics and themes, researcher Elizabeth Ellis exposes the systemic nature of current problems and the consequent need for significant change. This book also illustrates the role of official animal protection narratives in legitimising the existing system despite the many factual flaws they contain. Ellis covers the major areas of animal law in detail, incorporating accessible contextual material and allowing readers to consolidate their understanding and build upon their knowledge. Key areas include the concept of unnecessary animal suffering, the effective exemption of most animals from the operation of cruelty laws, regulatory conflicts of interest, the hidden nature of animal use and the lack of transparency in animal law. Australian Animal Law is an essential resource, inviting reflection on the way the law helps to construct the relationship between human and non-human animals, including through its silences and omissions.

Evaluation of the Department of Veterans Affairs Mental Health Services Mar 04 2020 Approximately 4 million U.S. service members took part in the wars in Afghanistan and Iraq. Shortly after troops started returning from their deployments, some active-duty service members and veterans began experiencing mental health problems. Given the stressors associated with war, it is not surprising that some service members developed such mental health conditions as posttraumatic stress disorder, depression, and substance use disorder. Subsequent epidemiologic studies conducted on military and veteran populations that served in the operations in Afghanistan and Iraq provided scientific evidence that those who fought were in fact being diagnosed with mental illnesses and experiencing mental health-related outcomes in particular, suicide at a higher rate than the general population. This report provides a comprehensive assessment of the quality, capacity, and access to mental health care services for veterans who served in the Armed Forces in

Operation Enduring Freedom/Operation Iraqi Freedom/Operation New Dawn. It includes an analysis of not only the quality and capacity of mental health care services within the Department of Veterans Affairs, but also barriers faced by patients in utilizing those services.
