Carl Sagan Dec 12 2020 A penetrating, mesmerizing biography of a scientific icon, now in paperback "Absolutely fascinating . . . Davidson has done a remarkable job."-Sir Arthur C. Clarke "Engaging . . . accessible, carefully documented . . . sophisticated."-Dr. David Hollinger for The New York Times Book Review "Entertaining . . . Davidson treats [the] nuances of Sagan's complex life with understanding and sympathy."-The Christian Science Monitor "Excellent . . . Davidson acts as a keen critic to Sagan's works and their vast uncertainties."-Scientific American "A fascinating book about an extraordinary man."-Johnny Carson "Davidson, an award-winning science writer, has written an absorbing portrait of this Pied Piper of planetary science. Davidson thoroughly explores Sagan's science, wrestles with his politics, and plumbs his personal passions with a telling instinct for the revealing underside of a life lived so publicly."-Los Angeles Times Carl Sagan was one of the most celebrated scientists of this century-the handsome and alluring visionary who inspired a generation to look to the heavens and beyond. His life was both an intellectual feast and an emotional rollercoaster. Based on interviews with Sagan's family and friends, including his widow, Ann Druyan; his first wife, acclaimed scientist Lynn Margulis; and his three sons, as well as exclusive access to many personal papers, this highly acclaimed life story offers remarkable insight into one of the most influential, provocative, and beloved figures of our time-a complex, contradictory prophet of the Space Age.

A Rose for the Anzac Boys Jul 31 2022 The 'War to end all Wars', as seen through the eyes of three young women War is being fought on a horrific scale in the trenches of France, but it might as well be a world away from sixteen-year-old New Zealander Midge Macpherson, at school in England learning to be a young lady. But the war is coming closer: Midge's brothers are in the army, and her twin, Tim, is listed as 'missing' in the devastating defeat of the Anzac forces at Gallipoli . Desperate to do their bit - and avoid the boredom of school and the restrictions of Society - Midge and her friends Ethel and Anne start a canteen in France, caring for the endless flow of wounded soldiers returning from the front. Midge, recruited by the over-stretched ambulance service, is thrust into carnage and scenes of courage she could never have imagined. And when the war is over, all three girls - and their Anzac boys - discover that even going 'home' can be both strange and wonderful. Exhaustively researched but written with the lightest of touches, this is Jackie French at her very best. AWARDS Shortlisted - 2009 ABIA Awards Honour Book - 2009 CBCA Book of the Year Awards (Younger Readers) PRAISE 'Highly recommended for teenage to adult readers' - Readings 'A book of many voices. Poignant, graphic and compulsive fiction about women who volunteered during WWI' - Sunday Age 'Beautifully written. An important story. The use of a sixteen year old protagonist will make the story more real and more confronting for teen readers' - Aussie Reviews 'A well-researched story about the invaluable support women provided during the war. Recommended for secondary school-aged children' - Australian Bookseller and Publisher '... rousing stuff, and it hasn't been watered down. French doesn't shy away from the nightmarish conditions of trench warfare. Highly readable, scrupulous in its history ... an ideal text for schools' - Sydney Morning Herald '... entertaining and uplifting' - Sun-Guardian Blacktown 'This is a moving story about the love, kindness and humanity of the people involved in the bloodshed and carnage of World War I' - Launceston Examiner 'Jackie has woven her usual magic with her deft light touch and humour in this gripping story' - Toowoomba Chronicle 'A warm tribute to extraordinary women in extraordinary times. We must remember them' - Woman's Day 'Younger readers will enjoy this story about the soldiers of World War I and the volunteers who supported them' - Brisbane News 'Comprehensively researched and beautifully written' - South Coast Register

Ruby Slippers, Golden Tears Aug 20 2021 Fairy tales reimagined—in stories by “a distinguished company of writers” including Neil Gaiman, Joyce Carol Oates, and Tanith Lee (Kirkus Reviews). For many of us, the fairy tale was our first exposure to the written word and the power of storytelling. These wondrous works of magic and morality enthralled us, enchanted us, sometimes terrified us, and remain in our hearts and memories still. Once again, World Fantasy Award–winning editors Ellen Datlow and Terri Windling have compiled an extraordinary collection of reimagined tales conceived by some of today’s most acclaimed contemporary purveyors of literary fantasy, science fiction, and horror, including Neil Gaiman, Gahan Wilson, Joyce Carol Oates, Tanith Lee, Nancy Kress, Gene Wolfe, and others. Remarkable things lurk in these dark and magical woods. Here Beauty confronts a serial-killer Beast, Hansel and Gretel’s witch resides not in a gingerbread house but in a luxurious resort, and Rumpelstiltskin is truly the devil demanding his due, rightfully or otherwise. The hilarious “Roach in Loafers” ingeniously combines the classic “Elves and the Shoemaker” tale with “Puss in Boots” and adds an insectile twist, while in a modern fable that blends The Wizard of Oz and Hans Christian Andersen, Dorothy is set adrift in Hollywoodland, ruby slippers and all. These are not the fairy stories you remember from childhood.

Political Philosophy Sep 01 2022 Bringing political philosophy out of the ivory tower and within the reach of all, this book provides us with the tools to cut through the complexity of modern politics.

Embedded Processor Design Challenges May 05 2020 This textbook is intended to give an introduction to and an overview of state-of-the-art techniques in the design of complex embedded systems. The book title is SAMOS for two major reasons. First, it tries to focus on the actual distinct, yet important problem fields of System-Level design of embedded systems, including mapping techniques and synthesis, Architectural design, Modeling issues such as specification languages, formal models, and finally Simulation. The second reason is that the volume includes a number of papers presented at a workshop with the same name on the Island of Samos, Greece, in July 2001. In order to receive international attention, a number of reputed researchers were invited to this workshop to present their current work. Participation was by invitation only. For the volume presented here, a number of additional papers were selected based on a call for papers. All contributions were refereed. This volume presents a selection of 18 of the refereed papers, including 2 invited papers. The textbook is organized according to four topics: The System-Level Design and Simulation. In this section, we present a collection of papers that give an overview of the challenging goal to design and explore alternatives of embedded system implementations at the system-level. One paper gives an overview of models and tools used in system-level design. The other papers present new models to describe applications, provide models for refinement and design space exploration, and for trade-off analysis between cost and flexibility of an implementation.

Engineering Materials and Metallurgy Nov 10 2020 This treatise on Engineering Materials and Metallurgy contains comprehensive treatment of the matter in simple, lucid and direct language and envelops a large number of figures which reinforce the text in the most efficient and effective way. The book comprises five chapters (excluding basic concepts) in all and fully and exhaustively covers the syllabus in the above mentioned subject of 4th Semester Mechanical, Production, Automobile Engineering and 2nd semester Mechanical disciplines of Anna University.

The Berenstain Bears' Big Machines Aug 08 2020 The Berenstain Bears discover various construction vehicles in this heavy-duty addition to the classic New York Times bestselling series. Gramps takes Brother, Sister, and Honey around town with Big Jake to learn all about construction vehicles. They see different types of machines workers use at construction sites, farms, and even in the woods. These are certainly no ordinary machines—they are big machines! The Berenstain Bears’ Big Machines is a Level One I Can Read book, which means it's perfect for children learning to sound out words and sentences.

Persuasion Oct 02 2022 Use your natural skills for the ultimate competitive advantage at work and in life. This practical and easy to read book presents the golden rules to being powerfully persuasive and winning people over every time.

Engineering Flow and Heat Exchange Feb 23 2022 The third edition of Engineering Flow and Heat Exchange is the most practical textbook available on the design of heat transfer and equipment. This book is an excellent introduction to real-world applications for advanced undergraduates and an indispensable reference for professionals. The book includes comprehensive chapters on the different types and classifications of fluids, how to analyze fluids, and where a particular fluid fits into a broader picture. This book includes various a wide variety of problems and solutions – some whimsical and others directly from industrial applications. Numerous practical examples of heat transfer Different from other introductory books on fluids Clearly written, simple to understand, written for students to absorb material quickly Discusses non-Newtonian as well as Newtonian fluids Covers the entire field concisely Solutions manual with worked examples and solutions provided

Engineering Drawing And Graphics Dec 24 2021 This Book Provides A Systematic Account Of The Basic Principles Involved In Engineering Drawing. The Treatment Is Based On The First Angle Projection. Salient Features: * Nomography Explained In Detail. * 555 Self-Explanatory Solved University Problems. * Step-By-Step Procedures. * Side-By-Side Simplified Drawings. * Adopts B.I.S. And I.S.O. Standards. * 1200 Questions Included For Self Test. The Book Would Serve As An Excellent Text For B.E., B.Tech., B.Sc. (Ap. Science) Degree And Diploma Students Of Engineering. Amie Students Would Also Find It Extremely Useful.

Babysitting the Baumgartners May 29 2022 Ronnie has been babysitting for the Baumgartners since she was fifteen and is now just another member of the family. Engineering Analysis with SOLIDWORKS Simulation 2015 Jan 25 2022 Engineering Analysis with SOLIDWORKS Simulation 2015 goes beyond the standard software manual. Its unique approach concurrently introduces you to the SOLIDWORKS Simulation 2015 software and the fundamentals of Finite Element Analysis (FEA) through hands-on exercises. A number of projects are presented using commonly used parts to illustrate the analysis features of SOLIDWORKS Simulation. Each chapter is designed to build on the skills, experiences and understanding gained from the previous chapters. Topics covered: Linear static analysis of parts and assemblies Contact stress analysis Frequency (modal) analysis Buckling analysis Thermal analysis Drop test analysis Nonlinear analysis Dynamic analysis Random vibration analysis and adaptive solution methods Modeling techniques Implementation of FEA in the design process Management of FEA projects FEA terminology

Engineering Statistics Mar 15 2021 Montgomery, Runger, and Hubele provide modern coverage of engineering statistics, focusing on how statistical tools are integrated into the engineering problem-solving process. All major aspects of engineering statistics are covered, including descriptive statistics, probability and probability distributions, statistical test and confidence intervals for one and two samples, building regression models, designing and analyzing engineering experiments, and statistical process control. Developed with sponsorship from the National Science Foundation, this revision incorporates many insights from the authors' teaching experience along with feedback from numerous adopters of previous editions.

Wiley CPAexcel Exam Review 2018 Test Bank Jan 13 2021 The Wiley CPAexcel Online Test Bank includes over 4,400 AICPA-formatted multiple-choice questions with detailed answers. Use the Wiley CPAexcel Online Test Bank to sharpen your skills, replicate the real test environment, identify and tag weak subject areas, or customize question sets. Your license includes 1-year access to the multiple choice question (MCQ) sets purchased. View your progress by topic, and understand where you have reached passing threshold. Customize reports by including or excluding saved sessions. Filter progress reports by subtopic and view as a raw score or in percentages. Rationales, hints, and full text explanation for every MCQ. Full CPA Practice Exams that fully replicate the real exam. Filter question sets by subtopic, never-seen-before and more. Randomized to prevent memorization. Create unlimited custom practice sessions and tests. Works on any computer or tablet.

Elementary Quantum Chemistry, Second Edition Apr 27 2022 Useful introductory course and reference covers origins of quantum theory, Schrödinger wave equation, quantum mechanics of simple systems, electron spin, quantum states of atoms, Hartree-Fock self-consistent field method, more. 1990 edition.

Billionaire Boy: Mark Zuckerberg: In His Own Words Oct 10 2020 Billionaire Boy: Mark Zuckerberg in his own words is a revealing insight into the mind and vision of the world's youngest billionaire and founder and CEO of Facebook. The Mark Zuckerberg most people know is the one depicted in Academy Award-winning film *The Social Network*: a nerdy, insecure and socially awkward young man – hardly the image of a topflight CEO in command of one of the world's largest and most successful companies. Achieving the growth of Facebook as fast as Zuckerberg has is no mean feat, especially when you consider he had never raised a dollar from investors nor managed a single employee before. At the helm of Facebook, Zuckerberg not only has to run fast to maintain the company's high profile success, but also needs to fight to stay ahead of some of the richest, most talented and most aggressive companies in the world. In this collection of quotations taken from interviews, presentations, media announcements and more, we see a new breed of business leader with a new way of thinking about business and success in a constantly changing world.

100 Words To Make You Sound Smart Jul 19 2021 This title in the popular 100 Words series is an informative and entertaining resource that can help anyone be right on the money when looking for words that will make a point, seal the deal, or just keep folks listening. Chosen by the editors of the American Heritage Dictionaries, these words will appeal to anyone who wants to be a more compelling communicator—as a worker, consumer, advocate, friend, dinner companion, or even as a romantic prospect. The book includes a colorful variety of words, including handy words of just one syllable (such as glib) and words derived from the names of famous people (such as Freudian slip and Machiavellian). There are expressions from popular culture (*Catch-22*) and words that date back to classical civilization (spartan and stoic). Each word is clearly defined and shown in context with quotations from magazines, newspapers, broadcast media, movies, and television. For many words, quotations from distinguished authors and speakers are also given and word histories are explained. 100 Words to Make You Sound Smart provides an affordable and enjoyable way to communicate more effectively. It offers the coveted gift of gab to anyone who needs to “say it right”—and to anyone who wants to sound more articulate.

Border Security in the Al-Qaeda Era Jun 05 2020 The events of 9/11 and other ongoing terrorist threats have taken interest in national security and border security to a heightened level of concern. An exploration of the trends and transformation of border security in the aftermath of 9/11, *Border Security in the Al-Qaeda Era* presents one of the first comprehensive analyses of not only the impact and consequence of 9/11 on border security but also its effects within the broader international context. Featuring contributions by an array of international experts, this volume explores border security in nine countries, ranging from those with conventional practices to those with approaches that represent the antithesis of the western world. It compares security measures in countries identified by Osama bin Laden in the post-9/11 era as potential targets for attack with a few that were not directly identified. For each country profiled, the authors provide, among other information: An overview of the history of terrorism and the extent of any suspected terrorist activity since 9/11 The definition of terrorism A description of how terrorist data is handled by border security An overview of border security operations The impact of changes to border security on the movement of citizens, goods, and foreigners Steps taken to improve national security and the impact on citizens The impact of border security changes on the sense of sovereignty While many of the challenges each country faces are similar, the authors demonstrate that there are differing approaches given the history, culture, geography, and politics of the various countries profiled. Steeped in the knowledge of scholars from the countries represented, this volume puts a criminological focus on border security and its role in the context of counterterrorism. This information can then be used

Modern Methods of Valuation Jun 29 2022 The new and improved eleventh edition of this essential valuation textbook reflects the changes in the property market since 2009, whilst presenting the tried and tested study of the principles governing the valuation of land, houses and buildings of the previous editions. The eleventh edition is fully up-to-date with latest guidelines, statutes and case law, including the implications of the latest RICS Red Book and the Localism Act. Its comprehensive coverage of the legal, economic and technical aspects of valuation make this book a core text for most University and College Real Estate Programmes and to provide trainees (APC Candidates) and practitioners with current and relevant guidance on the preparation of valuations for statutory purposes. Over the twenty eight chapters, the author team of experienced valuation experts present detailed accounts of the application of these principles to the everyday problems met in practice. This new edition continues to be of excellent value to both students and practitioners alike as it provides the reader with a clear understanding of the methods and techniques of valuation.

Wally Olins. Brand New. Oct 22 2021 What is the future for brands and branding? Does globalization mean that individuality will be crushed by massive multinationals? Or will there still be room for brands and places that trade on being different? With the rise of new markets in India, China, Brazil and elsewhere, will new global brands emerge based around local strengths and heritage? If so, what will this mean for the traditional dominance of brands based on Western cultural norms? Incisive, invigorating and visionary, this analysis of our fast-evolving global marketplace comes from the guru described by *The Financial Times* as 'the world's leading practitioner of branding and identity'. No one interested in branding, marketing, business or contemporary culture will want to be without it. What about the impact of digital technology and increasing customer feedback through social media? Today's businesses, in addition to thinking about price and provenance, have to deal with corporate social responsibility. How does this affect the products and services we consume? Are corporations here to maximize profits and grow, or to help society, or both? What, in fact, do customers want? Wally Olins's fascinating book looks at every aspect of the world of branding. With his customary flair and no-nonsense prose, he analyzes the problems facing today's organizations, criticizes corporate misbehaviour where he finds it, praises those companies who seem to be building and sustaining brands successfully in our brave new world, and predicts the future of branding. 'Wally Olins always asks the right questions and often gives the best and most thoughtful answers. - a must read for those of us who want to know where we're heading' John Diefenbach - Chairman of MBLM and former Chief Executive of Landor Associates
