Divine Images and Human Imaginations in Ancient Greece and Rome Jul 14 2021
Based on the visual and textual evidence, this volume concentrates on the artistic, intellectual, religious, and socio-political importance of divine images as media of communication in the polytheistic cosmos of ancient Greece and Rome.

Sallust's Histories and Triumviral Historiography Mar 10 2021 *Sallust's Histories and Triumviral Historiography* explores the historiographical innovations of the first century Roman historian Sallust, focusing on the fragmentary *Histories*, an account of the turbulent years after the death of the dictator Sulla. The *Histories* were written during the violent transition from republic to empire, when Rome's political problems seemed insoluble and its morals hopelessly decayed. The ruling triumvirate of Octavian, Mark Antony, and Lepidus created a false sense of hope for the future, relentlessly insisting that they were bringing peace to the republic. The *Histories* address the challenges posed to historians by both civil war and authoritarian rule. What does it mean, Sallust asks, to write history under a regime that so skillfully manipulates or even replaces facts with a more favorable narrative? Historiography needed a new purpose to remain relevant and useful in the triumviral world. In the *Histories*, Sallust adopts an analogical method of historiography that enables him to confront contemporary issues under the pretext of historical narrative. The allusive *Histories* challenge Sallust's audience to parse and analyze history as it is being written by the actors themselves and to interrogate the relationship

between words and deeds. The first monograph in any language on the Histories, this book offers comprehensive reading of Sallust's third and final work, featuring discussion of a wide selection of fragments beyond the speech and letters, set-pieces that have generally been studied in isolation. It offers a valuable resource for academics and postgraduates working on ancient historiography and Latin literature more generally; it will also be of interest to ancient historians working on the late Roman Republic. With English translations of all Greek and Latin passages, this book will also be useful for undergraduate and graduate courses on historiography, Latin literature, and Roman history.

Ancient Divination and Experience Jun 01 2020 This is an open access title available under the terms of a CC BY-NC-ND 4.0 licence. It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations. This volume sets out to re-examine what ancient people - primarily those in ancient Greek and Roman communities, but also Mesopotamian and Chinese cultures - thought they were doing through divination, and what this can tell us about the religions and cultures in which divination was practised. The chapters, authored by a range of established experts and upcoming early-career scholars, engage with four shared questions: What kinds of gods do ancient forms of divination presuppose? What beliefs, anxieties, and hopes did divination seek to address? What were the limits of human 'control' of divination? What kinds of human-divine relationships did divination create/sustain? The volume as a whole seeks to move beyond functionalist approaches to divination in order to identify and elucidate previously understudied aspects of ancient divinatory experience and practice. Special attention is paid to the experiences of non-elites, the perception of divine presence, the ways in which divinatory techniques could surprise their users by yielding unexpected or unwanted results, the difficulties of interpretation with which divinatory experts were thought to contend, and the possibility that divination could not just ease, but also exacerbate, anxiety in practitioners and consultants.

Women Going Public Jan 08 2021 The Julio-Claudian period (c. 27 BC to 68 AD) was a time of great tension, witnessing profound challenges to Roman political and social life. One manifestation of this was the increasingly important role played by women in the power struggles that gripped the Empire during the reign of Augustus and his four successors. This study discusses the portrayal of women from imperial families, who developed high public profiles to help to guarantee their family's continuity and create a public image of the princeps and his reign.

Animals in the Ancient World from A to Z Feb 21 2022 The ancient Greeks and Romans lived in a world teeming with animals. Animals were integral to ancient commerce, war, love, literature and art. Inside the city they were found as pets, pests, and parasites. They could be sacred, sacrificed, liminal, workers, or intruders from the wild. Beyond the city domesticated animals were herded and bred for profit and wild animals were hunted for pleasure and gain alike. Specialists like Aristotle, Aelian, Pliny and Seneca studied their anatomy and behavior. Geographers and travelers described new lands in terms of their animals. Animals are to be seen on every possible artistic medium, woven into cloth and inlaid into furniture. They are the subject of proverbs, oaths and dreams. Magicians, physicians and lovers turned to animals and their parts for their crafts. They paraded before kings, inhabited palaces, and entertained the poor in the arena. Quite literally, animals pervaded the ancient world from A-Z. In entries ranging from short to long, Kenneth Kitchell offers insight into this commonly overlooked world, covering representative and intriguing examples of mammals, reptiles, amphibians and invertebrates. Familiar animals such as the cow, dog, fox and donkey are treated along with more exotic animals such as the babirusa, pangolin, and dugong. The evidence adduced ranges from Minoan times to the Late Roman Empire and is taken from archaeology, ancient authors, inscriptions, papyri, coins, mosaics and all other artistic media. Whenever possible reasoned identifications are given for ancient animal

names and the realities behind animal lore are brought forth. Why did the ancients think hippopotamuses practiced blood letting on themselves? How do you catch a monkey? Why were hyenas thought to be hermaphroditic? Was there really a vampire moth? Entries are accompanied by full citations to ancient authors and an extensive bibliography. Of use to Classics students and scholars, but written in a style designed to engage anyone interested in Greco-Roman antiquity, *Animals in the Ancient World from A to Z* reveals the extent and importance of the animal world to the ancient Greeks and Romans. It answers many questions, asks several more, and seeks to stimulate further research in this important field.

Rome and the Worlds beyond its Frontiers Jan 28 2020 *Rome and the Worlds Beyond Its Frontiers* examines interactions between those within and those beyond the boundaries of Rome, with an eye to the question of contested identities and identity formations.

Women in Ancient Greece Aug 03 2020 Largely excluded from any public role, the women of ancient Greece nonetheless appear in various guises in the art and writing of the period, and in legal documents. These representations, in Sue Blundell's analysis, reveal a great deal about women's day-to-day experience as well as their legal and economic position - and how they were regarded by men.

Creating Ethnicities & Identities in the Roman World Aug 23 2019 Questions of ethnic and cultural identities are central to the contemporary understanding of the Roman world. The expansion of Rome across Italy, the Mediterranean, and beyond entailed encounters with a wide range of peoples. Many of these had well-established pre-conquest ethnic identities which can be compared with Roman perceptions of them. In other cases, the ethnicity of peoples conquered by Rome has been perceived almost entirely through the lenses of Roman ethnographic writing and administrative structures. The formation of such identities, and the shaping of these identities by Rome, was a vital part of the process of Roman imperialism. Comparisons across the empire reveal some similarities in the processes of identity formation during and after the period of Roman conquest, but they also reveal a considerable degree of diversity and localisation in interactions between Romans and others. This volume explores how these practices of ethnic categorisation formed part of Roman strategies of control, and how people living in particular places internalised them and developed their own senses of belonging to an ethnic community. It includes both regional studies and thematic approaches by leading scholars in the field--Publisher website.

Athenian Democratic Origins Sep 04 2020 In these interconnected essays the late Geoffrey de Ste. Croix defends the institutions of the Athenian democracy, showing that they were much more practical, rational, and impartial than has usually been acknowledged. A major essay provides a new view of Aristotle's use of sources in *The Constitution of the Athenians*, on which so much of our knowledge of Athenian constitutional history depends. Ste. Croix also argues that commercial factors had much less influence on Greek politics than modern scholars tend to assume, and that there was no such thing in any Greek state as a 'commercial aristocracy'. As always, he works out these general positions with the utmost lucidity and pungency, and in meticulous detail. Though written in the 1960s, these hitherto unpublished essays by a great radical historian will still constitute a

major contribution to contemporary debate. The editors and other specialists have supplied an updating Afterword to each chapter, and the book contains a thorough index.

Brill's Companion to Euripides (2 vols) May 12 2021 Brill's Companion to Euripides, as well as presenting a comprehensive and authoritative guide to understanding Euripides and his masterworks, provides scholars and students with compelling fresh perspectives upon a broad range of issues in the field of Euripidean studies.

Fathers and Sons in Athens May 24 2022 As history's first democracy, classical Athens invited political discourse. The Athenians, however could not completely separate the political from the private sphere; indeed father-son conflict, from patricide to murdering one's son, was a major public as well as a private theme. In a fascinating historical reappraisal, the author explores the consequences, for Athens and us, of the powerful influence of familial ideology on politics.

Speech in Ancient Greek Literature Jun 25 2022 "Speech in Ancient Greek Literature is the fifth volume in the series Studies in Ancient Greek Narrative. There is hardly any Greek narrative text without speech, which need not surprise in the literature of a culture which loved theatre and also invented the art of rhetoric. This book offers a full discussion of the types of speech, the modes of speech and their effective alternation, and the functions of speech from Homer to Heliodorus, including the Gospels. For the first time speech-introductions and 'speech in speech' are discussed across all genres. All chapters also pay attention to moments when characters do not speak"--

Hellenistic Collection Jul 26 2022 Works by authors such as Philotas of Cos, Alexander of Aetolia, Hermesianax of Colophon, Euphorion of Chalcis and, especially Parthenius of Nicaea, who composed the mythographical Sufferings in Love, represent rich inventiveness in Hellenistic prose and poetry from the fourth to the first century BCE.

A Historical and Topographical Guide to the Geography of Strabo Aug 27 2022 Strabo's Geography, completed in the early first century AD, is the primary source for the history of Greek geography. This Guide provides the first English analysis of and commentary on this long and difficult text, and serves as a companion to the author's The Geography of Strabo, the first English translation of the work in many years. It thoroughly analyzes each of the seventeen books and provides perhaps the most thorough bibliography as yet created for Strabo's work. Careful attention is paid to the historical and cultural data, the thousands of toponyms, and the many lost historical sources that are preserved only in the Geography. This volume guides readers through the challenges and complexities of the text, allowing an enhanced understanding of the numerous topics that Strabo covers, from the travels of Alexander and the history of the Mediterranean to science, religion, and cult.

Liberalization of Trade in Banking Services Oct 29 2022 "The financial crisis struck with full force in the autumn of 2008. Very soon after the start of the crisis, culprits were sought. An important recurring argument was that liberalization of trade in banking services, as pursued at the European (within the EU) and international level (in the WTO), had seriously reduced the possibilities for governments to regulate and supervise the

banking sector. This book examines the validity of this claim and considers how EU law and WTO law deal with the trade-off any policy-maker must make between stability and efficiency in the market for banking services. The book considers specifically the interaction between EU and WTO law because the EU is itself a Member of the WTO, next to its Member States. This implies that the EU must respect the obligations it undertook in the framework of the WTO when the EU determines its policy towards third-country banks"--

Character, Narrator, and Simile in the Iliad Apr 11 2021 Jonathan L. Ready offers the first comprehensive examination of Homer's similes in the Iliad as arenas of heroic competition. This study concentrates primarily on similes spoken by Homeric characters. The first to offer a sustained exploration of such similes, Ready shows how characters are made to contest through and over simile not only with one another but also with the narrator. Ready investigates the narrator's similes as well. He demonstrates that Homer amplifies the feat of a successful warrior by providing a competitive orientation to sequences of similes used to describe battles. He also offers a new interpretation of Homer's extended similes as a means for the poet to imagine his characters as competitors for his attention. Throughout this study, Ready makes innovative use of approaches from both Homeric studies and narratology that have not yet been applied to the analysis of Homer's similes.

Trade in the Ancient Mediterranean Apr 23 2022 How ancient Mediterranean trade thrived through state institutions From around 700 BCE until the first centuries CE, the Mediterranean enjoyed steady economic growth through trade, reaching a level not to be regained until the early modern era. This process of growth coincided with a process of state formation, culminating in the largest state the ancient Mediterranean would ever know, the Roman Empire. Subsequent economic decline coincided with state disintegration. How are the two processes related? In *Trade in the Ancient Mediterranean*, Taco Terpstra investigates how the organizational structure of trade benefited from state institutions. Although enforcement typically depended on private actors, traders could utilize a public infrastructure, which included not only courts and legal frameworks but also socially cohesive ideologies. Terpstra details how business practices emerged that were based on private order, yet took advantage of public institutions. Focusing on the activity of both private and public economic actors—from Greek city councilors and Ptolemaic officials to long-distance traders and Roman magistrates and financiers—Terpstra illuminates the complex relationship between economic development and state structures in the ancient Mediterranean.

The Discourse of Kingship in Classical Greece Jan 20 2022 This book examines how ancient authors explored ideas of kingship as a political role

fundamental to the construction of civic unity, the use of kingship stories to explain the past and present unity of the polis and the distinctive function or status attributed to kings in such accounts. It explores the notion of kingship offered by historians such as Herodotus, as well as dramatists writing for the Athenian stage, paying particular attention to dramatic depictions of the unique capabilities of Theseus in uniting the city in the figure of the 'democratic king'. It also discusses kingship in Greek philosophy: the Socratics' identification of an 'art of kingship', and Xenophon and Isocrates' model of 'virtue monarchy'. In turn, these allow a rereading of explorations of kingship and excellence in Plato's later political thought, seen as a critique of these models, and also in Aristotle's account of total kingship or pambasileia, treated here as a counterfactual device developed to explore the epistemic benefits of democracy. This book offers a fascinating insight into the institution of monarchy in classical Greek thought and society, both for those working on Greek philosophy and politics, and also for students of the history of political thought.

The Fragments of the Roman Historians Sep 23 2019

Genre in Archaic and Classical Greek Poetry Feb 27 2020 Genre in Archaic and Classical Greek Poetry foregrounds innovative approaches to the question of genre, what it means, and how to think about it for ancient Greek poetry and performance. Embracing multiple definitions of genre and lyric, the volume pushes beyond current dominant trends within the field of Classics to engage with a variety of other disciplines, theories, and models. Eleven papers by leading scholars of ancient Greek culture cover a wide range of media, from Sappho's songs to elegiac inscriptions to classical tragedy. Collectively, they develop a more holistic understanding of the concept of lyric genre, its relevance to the study of ancient texts, and its relation to subsequent ideas about lyric.

United States Supreme Court Decisions, 1778-1996 Aug 15 2021 Janousek's new edition of this immensely valuable work will simplify the process of finding excerpts and commentary on every Supreme Court decision, as well as the texts, whether in government documents or reprinted in other sources, of the decisions themselves. This third volume in the series covers the literature from 1980 to 1995, indexing discussion and analysis in both monographs and periodicals of Court decisions from its earliest days.

Polybius and His Legacy Mar 30 2020 Although scholars continue to address old questions about Polybius, it is clear that they are also turning their attention to aspects of his history that have been inadequately dealt with in the past or have even gone largely unnoticed. Polybius' history is increasingly treated not just as a source of valuable information on the impressive expansion of Roman rule in the Mediterranean world, but also as a complex and nuanced narrative with its own interests and purposes. Moreover, since (apart from Livy's use of Polybius, which has been thoroughly discussed) most studies of Polybius' reception focus on the modern world, especially in relation to the theory of mixed constitutions, finding out

more about Polybius' impact on ancient Greek and Roman authors remains a major desideratum. This volume brings together contributions which, in either posing new questions or reformulating old ones, attest both to the ardent scholarly interest currently directed toward Polybius and to the variety of hermeneutical issues raised by his work. Subjects discussed include Polybius' historical ideas, his methods of composition, his views on the role of the historian, his representation of cultural difference, his intertextual affinities, and his reception and influence. Taken together, the papers in this collection attempt to promote a deeper understanding of the qualities and peculiarities of Polybius' history, as well as to offer fresh insights into the interpretation of this important work.

Slaves and Masters in the Ancient Novel Mar 22 2022 The present volume contains revised versions of most of the papers that were delivered at RICAN 7, which was held in Rethymnon, Crete, on 27-28 May 2013. The focus of the conference was on the portrayal and function of male and female slaves and their masters/mistresses in the ancient novel and related texts; the complex relationship between these social categories raises questions about slavery and freedom, gender and identity, stability of the self and social mobility, social control and social death. The papers offer a wide and rich range of perspectives: enslavement of elite women in Chariton's *Callirhoe* and Stoic ideas of moral slavery in Dio Chrysostom (Hilton); reversal of social status and techniques of (self-)characterization in Chariton (De Temmerman); the interaction between implicit and explicit narratives of slavery in Chariton and its effect on the readers of the novel (Owens); the narratological, structural and symbolic centrality of slavery in Xenophon's *Ephesiaka* (Trzaskoma); the socio-historical dimensions of slavery and the prominent discourse on despotism in Iamblichus' *Babyloniaka* (Dowden); the balance between historical accuracy and fiction in the representation of slavery in Achilles Tatius (Billault); animals, human slaves and elite masters, and the presence of Rome in Longus' *Daphnis and Chloe* (Bowie); the distribution of slaves on the geographical, cultural and moral maps drawn in Heliodorus' *Aithiopika* (Montiglio); slave women and their relationships to their mistresses as positive and negative paradigms of love in Heliodorus' *Aithiopika* (Morgan and Repath); the freedman's world as a self-perpetuating and closed universe in Petronius' *Satyrica* (Bodel); beauty, slavery and the destabilization of societal norms and authority figures in Petronius' *Satyrica* (Panayotakis); the interaction between Roman comedy and elegy in the representation of the relationship of Lucius and Photis in Apuleius' *Metamorphoses* (May); a comparative analysis of the semantics and function of slavery-related terms in pseudo-Lucian's *Onos* and Apuleius' *Metamorphoses* (Paschalis); enslaved and free storytelling in the *Life of Aesop* and the history and evolution of the ancient fable tradition (Lefkowitz).
