The Millionaire Next Door 17 2021 "Why aren't I as wealthy as I should be?" Many people ask this question of themselves all the time. Often they are hard-working, well educated middle- to high-income people. Why, then, are they not millionaires? The answer has been found in the bestselling The Millionaire Next Door: The Surprising Secrets of America's Wealthy, reissued with a new foreword for the twenty-first century by Dr. Thomas J. Stanley. As most people have all it wrong about how you become wealthy in America. Wealth in America is more often the result of hard work, diligent savings, and living below your means than it is about inheritance, advance degrees, and high status. The Millionaire Next Door identifies seven common traits that show up again and again among those who have accumulated wealth. You will learn, for example, that millionaires bargain shop for used cars, pay a tiny fraction of the cost for their children who are often unaware of their family's wealth until they are adults, and, above all, reject the big-spending lifestyles most of us associate with rich people. In fact, you will learn that the flashy millionaires glamorized in the media represent only a tiny minority of America's rich. Most of the truly wealthy in this country don't live in Beverly Hills or on Park Avenue—they live next door.

Her mother brought home a Maine Coon kitten for Iris, even though cats aren't typically thought of as therapy pets. Thula, named after one of Iris's favorite African lullabies and meaning "peace" in Zulu, immediately bonded with Iris. Iris would go away how to assuage Iris when she became overstimulated: when to intervene when Iris became overwhelmed; and how to provide distraction when Iris started heading toward a meltdown. Whether exploring, playing, sleeping, or accompanying the family on a bike ride, Thula became so much more than a therapy cat. With Thula's safe companionship, Iris began to talk and interact with her family. This heartwarming story is illustrated with both photographs and sixty of Iris's gorgeous impressionistic paintings, works of art that have allowed her to express herself since the age of three.
