The Man at the End of the Hall Dec 07 2020 The trek through life is much more daunting for some than for others. The subject of this story finds his journey fraught with challenges others seem to navigate with little difficulty. Establishing and maintaining relationships are his most severe hurdles, especially that with a enigmatic father, the man at the end of the hall. The main character takes us along on his perilous search for meaning in life, confiding in us and asking us questions the answers to which he finds illusive. The novel is designed to reach remote regions of the readers' psyches in an attempt to unearth what's important and what's not important, both to the reader and the subject of our story. The book is not about materialism or power or what some see as success but rather a journey into the heart of lightness which is human goodness. There is not happy ending to this story but such is often the case in life. What it does try to leave the reader with is that people are good, that they can overcome sadness and loss through communication and that true happiness comes from intimacy and a sense of deep, profound self-fulfillment. As Socrates supposedly said once, "an unexamined life wasn't worth living." Hopefully the reader will be changed for the better in the reading.

*Cumboto* Aug 03 2020 This richly orchestrated novel, which won a national literary prize in the author's native land, Venezuela, also earned international recognition when the William Faulkner Foundation gave it an award as the most notable novel published in Ibero America between 1945 and 1962. Cumboto's disturbing story unfolds during the early decades of the twentieth century on a Venezuelan coconut plantation, in a turbulent Faulknerian double world of black and white. It records the lives of Don Federico, the effete survivor of a once vigorous family of landowners, and his Negro servant Natividad, who since the days of their mutual childhood has been his only friend. Young Federico, psychologically impotent and lost to human contact, lives on as a lonely recluse in the century-old main house of "Cumboto," surrounded by descendants of African slaves who still manage, despite his apathy, to keep the plantation on its feet. Natividad's heroic and selfless struggle to redeem his friend by awakening him to the stirrings of the earth and life about him sets in motion a series of events that are to shatter Federico's childlike world: a headlong love affair with a voluptuous black girl, her terrified flight in the face of the bitter condemnation of her own people, and the unexpected appearance, twenty years later, of their extraordinary son. Throughout the novel runs a recurring theme: neither race can survive without the other. Black and white, Díaz Sánchezz suggests, embody contrasting aspects of human nature, which are not inimical but complementary: the languid intellectualism of European culture must be tempered with the indestructible vitality and intuition of the African soul if humanity is ever fully to comprehend the living essence of the world.

*Orlando Crispe's Flesh-Eater's Cookbook* Aug 23 2019 This is a cookbook for the millennium: an extravagant, shameless and highly entertaining work that will change the course of contemporary cuisine, it takes cooking out of the kitchen and away from the TV screens, and puts it where it deserves to be: in the philosophy section alongside Plato and other great culinary masters. The notorious *Thursday Club* reveals its culinary secrets as the reader is invited to take part in its annual banquet. The meal is lavish, its contents unique, the taste out of this world. It is not just a meal but a philosophical statement. It is not to be eaten, but absorbed into the body. Orlando Crispe demonstrates the power of food on human behavior and how it can incite both love and revulsion. And no detail of preparation is too insignificant or too outre to be revealed: *Beef Stock au Orlando Crispe: Marinate the carcass of a cow in a hot-water bath for several hours with its chef, so that the juices of the one can mingle with that of the other.*

White Shell Water Place Aug 15 2021 This anthology, a companion to the Santa Fe 400th Anniversary Commemoration publication, *All Trails Lead to Santa Fe*, affords Native American authors the opportunity to unreservedly express their ideas, opinions and perspectives on the historical and cultural aspects of Santa Fe using their own voice and preferred writing styles that are not necessarily in accord with western academic and writing conventions. One cannot truly contemplate the history and culture of Santa Fe without the voices of the Native Americans—the original inhabitants of Po'oge, "White Shell Water Place". Indeed, much of Santa Fe's story is conveyed from a western colonial perspective, which, until fairly recently, has predominantly relegated Native Americans to the fringes. However, over the last thirty years colonial narratives regarding Native American history and culture have been, and continue to be, disputed and amended as the pursuit of academic, intellectual and cultural self determination gains momentum in respective Native American tribal and academic communities. The Santa Fe 400th Commemoration has created an opportunity for the Native American voice to be heard. This anthology is a ceremony of Native voices, a gathering of Native people offering scholarly dialogue, personal points of view, opinions, and stories regarding the pre and post-historical and cultural foundations of Santa Fe.

*The Creation of Wealth* Nov 25 2019 When Jamsetji Tat started a trading firm in 1868, few could have guessed that he was also starting an important chapter in the making of modern India. Jamsetji saw that the three keys to India's industrial development were steel, hydroelectric power, and technical education and research. A century and a half later, the Tatas can claim with justice to have lined up to the vision of their founder. This edition includes the story of how the Tatas, with Ratan Tata at the helm, have had to grapple with change in the post-1992 era of economic reforms, when the opening up of India to the world came as both a challenge and a blessing. In a frank epilogue, Ratan Tata talks about the difficulties he faced in implementing change, including resistance from his colleagues. This new edition also has a postscript on the Nano, which has given the most global prominence to the Tata brand. *The Creation of Wealth* is R.M. Lala's bestselling account of how the Tatas have been at the forefront in the making of the Indian nation—not just by their phenomenal achievements as industrialists and entrepreneurs but also by their significant contributions in areas like factory reforms, labour and social welfare, medical research, higher education, culture and arts, and rural development.
