Practical Leadership in Community Colleges Feb 12 2021 Anticipate, manage, and overcome the complex issues facing community colleges Practical Leadership in Community Colleges offers a path forward through the challenges community colleges face every day. Through field observations, reports, news coverage, and interviews with leaders and policy makers, this book digs deep into the issues confronting college leaders and provides clear direction for managing through the storm. With close examination of both emerging trends and perennial problems, the discussion delves into issues brought about by changing demographics, federal and state mandates, public demand, economic cycles, student unrest, employee groups, trustees, college supporters, and more to provide practical guidance toward optimal outcomes for all stakeholders. Written by former presidents, including a past president of the American Association of Community Colleges, this book provides expert guidance on anticipating and managing the critical issues that affect the entire institution. Both authors serve as consultants, executive coaches, and advisors to top leaders, higher education institutions, and leadership development programs throughout the United States. Community colleges are facing increasingly complex issues from both without and within. Some can be avoided, others only mitigated—but all must be managed, and college leaders must be fully prepared or risk failing the students and the community. This book provides real-world guidance for current and emerging leaders and trustees seeking more effective management methods, with practical insight and expert perspective. Tackle the college completion challenge and performance-based funding initiatives Manage through economic cycles, declining support, and calls for accountability Delve into the issues of privatization and employee unionization Execute strategies to align institutional goals and mission Manage organizational change and new ways of thinking that are essential in today's competitive environment Manage issues involving diversity, inclusiveness, and equity Prepare adequately for campus emergencies Community colleges are the heartbeat of the nation's higher education system, and bear the tremendous responsibility of serving the needs of a vast and varied student body. Every day may bring new issues, but effective management allows institutions to rise to the challenge rather than falter under pressure. Practical Leadership in Community Colleges goes beyond theory to provide the practical guidance leadership needs to more effectively lead institutions to achieve results and serve the students and the community.

In a world where compromise is an essential aspect of life, authors Lily Zheng and Inge Hansen make the bold claim that everyone sells out—and that the real challenge lies in doing so ethically. Zheng and Hansen share stories from a diversity of people who have found their own answers to this dilemma and offer new ways to think about marginalization, privilege, and self-interest. From these stories, they pull out teachable skills for taking the step from selling out to selling out ethically. The Ethical Sellout is for all those committed to maintaining their integrity in a messy world.

Human Behavior for Social Work Practice Dec 25 2021 "The primary goal of this text is to support social work students in HBSE 1 courses to develop a conceptual framework for understanding and meeting the challenges they will likely encounter in 21st century practice. Through contemporary scholarship in human development, ecology, and systems theory, we build on social work's classic bio-psycho-social-spiritual framework. Our interdisciplinary, developmental, ecological-systems framework addresses the ways in which human beings shape, and are shaped within, complex and dynamic national and international contexts across the lifespan. We attempt to establish a bridge between undergraduate courses in the social, behavioral and biological sciences; and social work practice courses. We begin by establishing a framework for understanding human behavior in the social environment through chapters providing an historical overview of the interdisciplinary roots of the developmental-ecological systems framework, the brain and development, and the role of empirical evidence on social work practice. Then we examine social work issues at various points in human development using specific programs and policies to illustrate developmentally - and culturally - sensitive social work practice. These chapters include excerpts from interviews with practicing social workers. Part 3 focuses on social work issues affecting individuals across the lifespan and around the globe through chapters on disability and stigmatization; race, racism and resistance; women and gender; and terrorism"-

The Disinformation Age Jan 02 2020 The Disinformation Age, beginning in the present and going back to the American colonial period, constructs an original historical explanation for the current political crisis and the reasons the two major political parties cannot address it effectively. Commentators inside and outside academia have described this crisis with various terms — income inequality, the disappearance of the middle-class, the collapse of the two-party system, and the emergence of a corporate oligarchy. While this book uses such terminology, it uniquely provides a unifying explanation for the current state of the union by analyzing the seismic rupture of political rhetoric from political reality used within discussion of these issues. In advancing this analysis, the book provides a term for this rupture, Disinformation, which it defines not as planned propaganda but as the inevitable failure of the language of American Exceptionalism to correspond to actual history, even as the two major political parties continue to deploy this language. Further, in its final chapter this book provides a way out of this political cul-de-sac, what it terms "the limits of capitalism 's imagination," by "thinking from a different place" that is located in the theory and practice of the Indigenous peoples of the Americas.

HANDBK FOR CAMPUS SAFETY & SEC Jul 28 2019 Choosing a postsecondary institution is a major decision for students and their families. Along with academic, financial and geographic considerations, the issue of campus safety is a vital concern. In 1990, Congress enacted the Crime Awareness and Campus Security Act of 1990 (Title II of Public Law 101-542), which amended the Higher Education Act of 1965 (HEA). This act required all postsecondary institutions participating in HEA's Title IV student financial assistance programs to disclose campus crime statistics and security information. The act was amended in 1992, 1998, 2000 and 2008. The 1998 amendments renamed the law the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act in memory of a student who was slain in her dorm room in 1986. It is generally referred to as the Clery Act and is in section 485(f) of the HEA. On March 7, 2013, the Violence Against Women Reauthorization Act of 2013 (VAWA) (Public Law 113-14) was signed into law. VAWA includes amendments to the Clery...

Domestic and Family Violence Sep 29 2019 Domestic and family violence (DFV) is an enduring social and public health issue of endemic proportions and global scale, with multiple and lasting consequences for those directly affected. This book tackles current debates in the field and addresses the social norms and settings that perpetuate this type of violence, along with implications for service delivery. The book offers a thorough introduction into the nature and extent of DFV in contemporary social contexts and serves as a foundation for informed practice. It provides a firm theoretical and empirical overview of core issues, covering the challenges and support needs experienced by those affected, along with the implications this raises for the range of relevant response services. The authors also offer insight into the predominantly gendered nature of DFV and its influence beyond the traditional couple context, across age, gender, sexual orientation, cultural background, and family relationships. Drawing on theoretical explanations, international research, and practice experience, they highlight examples of good practice and holistic responses, including primary, secondary, and tertiary prevention. Written in a clear and direct style, this book will appeal to students and scholars of criminology, sociology, and social work engaged in studies of domestic and family violence, violence against women, and intimate partner violence. It will be an invaluable resource for those designing, coordinating, and conducting service responses.

Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States Jul 08 2020 Every day in the United States, children and adolescents are victims of commercial sexual exploitation and sex trafficking. Despite the serious and long-term consequences for victims as well as their families, communities, and society, efforts to prevent, identify, and respond to these crimes are largely under supported, inefficient, uncoordinated, and unevaluated. *Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States* examines commercial sexual exploitation and sex trafficking of U.S. citizens and lawful permanent residents of the United States under age 18. According to this report, efforts to prevent, identify, and respond to these crimes require better collaborative approaches that build upon the capabilities of people and entities from a range of sectors. In addition, such efforts need to confront demand and the individuals who commit and benefit from these crimes. The report recommends increased awareness and understanding, strengthening of the law's response, strengthening of research to advance understanding and to support the development of prevention and intervention strategies, support for multi-sector and interagency collaboration, and creation of a digital information-sharing platform. A nation that is unaware of these problems or disengaged from solutions unwittingly contributes to the ongoing abuse of minors. If acted upon in a coordinated and comprehensive manner, the recommendations of *Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States* can help advance and strengthen the nation's emerging efforts to prevent, identify, and respond to commercial sexual exploitation and sex trafficking of minors in the United States.

Reversing the Rivers Nov 23 2021 From 1994 to 2006, William F. Schulz headed Amnesty International USA. During this time, he and the organization confronted some of the greatest challenges to human rights, including genocides in Rwanda, Bosnia, and Sudan; controversies over the prison camp at Guantanamo Bay, Cuba, and the use of torture by the United States after 9/11; as well as growing concern about inequities in the American justice system, from police misconduct to the death penalty. Drawing upon his encounters with tyrants, the inspiration of brave human rights heroes, and collaborations with celebrities ranging from Patrick Stewart to Salma Hayek, Schulz uses poignant narrative and amusing anecdotes to discuss the day-to-day realities of struggling with life-and-death human rights crises. In the process he ducks an assassination threat in Liberia; brings tears to the eyes of the Prime Minister of Northern Ireland; and bests America's self-described "toughest sheriff" on Bill Maher's *Politically Incorrect*. Full of reflection as well as action, *Reversing the Rivers* provides Schulz with the opportunity to address profound philosophical questions, such as "What is the nature of evil?"; "How do we foster the 'better angels of our nature'?" "When may we use force to stop people from using force?" "Is the prohibition on torture as simple as it seems?" and "What's wrong with an eye for an eye?" Most important, in an eloquent concluding chapter, he answers the quandary most frequently posed to him during his years at Amnesty, "Given all the horrors in the world you see day after day, how do you retain any hope at all in humanity?"

Gender, Violence, and Justice Sep 21 2021 *Gender, Violence, and Justice* is a volume of collected essays by an expert in the field of violence against women and pastoral theology. It represents over three decades of research, advocacy, and pastoral theological reflection on the subject of sexual and domestic violence. Topics include intimate partner violence, sexual abuse and trauma, and clergy sexual misconduct; controversial theological issues such as forgiveness; and, as well, positive frameworks for fostering well-being in families, church, and society. Framed by a foreword and an introduction that place this work in the context of new and contemporary challenges in theory and practice, these essays show an evolution of issues and frameworks for theology, care, and activism arising over time from the movement to end violence against women (both within and beyond religious communities)—while at the same time demonstrating an unchanging core commitment to gender justice.

Rape, Victims, and Investigations Feb 24 2022 Despite changes to laws and attitudes, rape continues at epidemic levels worldwide. As gatekeepers to the criminal justice system, law enforcement officers are important to the processing of rape cases and their interactions with victims can potentially affect the victim's reaction to and recovery from rape. In order to better understand rape and the processing of cases through the criminal justice and legal systems, *Rape, Victims and Investigations* explores the unique perceptions and experiences of detectives who respond to rape victims and investigate rape cases. The detective's investigation is the foundation of the prosecution's case; the book considers factors that contribute to the challenging nature of rape investigations, such as lack of evidence or a clear, credible victim statement. Detectives' perceptions of victims' revictimization by the criminal justice and legal systems are also explored. The book also looks at specific causes of police stress and burnout related to working rape cases, financial struggles faced by departments, and ways to meet these challenges. By integrating previous research within the context of rich interview data, *Rape, Victims and Investigations* provides deep insight for readers and will contribute to the continued improvement of treatment of victims by the criminal justice system. The book will be essential reading for academics, students, law enforcement officers, those who provide services to sexual assault victims and victims themselves.

Free Joan Little Jun 06 2020 Early on a summer morning in 1974, local officials found the jailer Clarence Allgood stabbed to death in a cell in the women's section of a rural North Carolina jail. Fleeing the scene was Joan Little, twenty years old, poor, Black, and in trouble. After turning herself in, Little faced a possible death sentence in the state's gas chamber. At her trial, which was followed around the world, Little claimed that she had killed Allgood in self-defense against sexual assault. Local and national figures took up Little's cause, protesting her innocence. After a five-week trial, Little was acquitted. But the case stirred debate about a woman's right to use deadly force to resist sexual violence. Through the prism of Little's rape-murder trial and the Free Joan Little campaign, Christina Greene explores the intersecting histories of African American women, mass incarceration, sexual violence, and social movements of the 1970s and 1980s. Greene argues that Little's circumstances prior to her arrest, assault, and trial were shaped by unprecedented increases in federal financing of local law enforcement and a decades-long criminalization of Blackness. She also reveals tensions among Little's defenders and recovers Black women's intersectional politics of the period, which linked women's prison protest and antirape activism with broader struggles for economic and political justice.

Third Party Policing Jun 26 2019 Third party policing represents a major shift in contemporary crime control practices. As the lines blur between criminal and civil law, responsibility for crime control no longer rests with state agencies but is shared between a wide range of organisations, institutions or individuals. The first comprehensive book of its kind, *Third Party Policing* examines this growing phenomenon, arguing that it is the legal basis of third party policing that defines it as a unique strategy. Opening up the debate surrounding this controversial topic, the authors examine civil and regulatory controls necessary to this strategy and explore the historical, legal, political and organizational environment that shape its adoption. This innovative book combines original research with a theoretical framework that reaches far beyond criminology into politics and economics. It offers an important addition to the world-wide debate about the nature and future of policing and will prove invaluable to scholars and policy makers.

Why Don't You Just Talk to Him? Aug 01 2022 This study examines the broad political contexts in which violence, specifically domestic violence, occurs. The author argues that liberal and Enlightenment notions of the social contract, rationality, and egalitarianism--the ideas that constitute norms of good citizenship--are inextricably linked to violence. According to this dynamic, targets of abuse are viewed as being irrational, incapable of making good choices or negotiating with their abusers, or otherwise violating norms of the social contract; they are, in other words, second-class citizens. In fact, as the author shows, drawing from Nietzsche and Foucault's theories of power and arguing against much of the standard literature on domestic violence, the very mechanisms that purportedly help targets of domestic abuse actually work to compound the problem by exacerbating (or ignoring) the power differences between the abuser and the abused. The key to preventing domestic violence, the author contends, lies in seeing it as a political rather than a personal issue that has political consequences. Enlightenment ideas about intimacy that conceive of personal relationships as mutual, equal, and contractual must be challenged, as well as policy ideas that suggest targets of abuse can simply choose to leave abusive relationships without other personal or economic consequences.--From publisher description.

Feminist Praxis against U.S. Militarism Jul 20 2021 Feminist Praxis against U.S. Militarism provides critical feminist and womanist analyses of U.S. militarism that challenge the ongoing U.S. neoliberal military-industrial complex and its multivalent violence that destroys people ' s lives, especially women and other vulnerable populations. It highlights the intentional critique of U.S. militarism from feminist/womanist perspectives that seek to show the ways in which gender, race/ethnicity, sexuality, and violence intersect to threaten women ' s lives, especially women of color ' s lives, and the broader environment upon which women ' s lives are dependent. Most of all, this volume challenges the readers to understand the U.S. as the warfare, counterterror, carceral state and its devastating effects on the everyday lives of women, especially women of color, locally, nationally, and globally. This volume also helps readers understand the racialized gendered impacts of U.S. militarism in conjunction with the ongoing global economies of dispossession and militarized violence across the borders of nation-states. Interrogating U.S. military interventions in " other " countries can show how the U.S. War on Terror directly affects U.S. " domestic " affairs and daily lives in the United States.

Maze of Injustice Apr 16 2021 More than one in three Native American or Alaska Native women will be raped at some point in their lives. Most do not seek justice because they know they will be met with inaction or indifference. As one support worker said, "Women don't report because it doesn't make a difference. Why report when you are just going to be revictimized?" Sexual violence against women is not only a criminal or social issue, it is a human rights abuse. This report unravels some of the reasons why Indigenous women in the USA are at such risk of sexual violence and why survivors are so frequently denied justice. Chronic under-resourcing of law enforcement and health services, confusion over jurisdiction, erosion of tribal authority, discrimination in law and practice, and indifference -- all these factors play a part. None of this is inevitable or irreversible. The voices of Indigenous women throughout this report send a message of courage and hope that change can and will happen.
