Under the Iron Heel Jul 26 2022 Under the Iron Heel, first published in 1941, is a firsthand account of the German invasion and occupation of Belgium in the early days of World War II. The author, an American scientist who was trapped in Belgium at the time of the invasion, reports on daily life for the civilian populace under the Germans (restrictions, food shortages, resistance efforts, etc.), and also includes insightful reports on the experiences of typical German soldier, based, in part, on talks with the many soldiers billeted at his hotel. Author Möen was able to leave Belgium for the safety and freedom of neutral Portugal in late 1940. Included are 18 pages of illustrations.

The 30th North Carolina Infantry in the Civil War Feb 09 2021 At the outbreak of the Civil War, the men of the 30th North Carolina rushed to join the regiment, proclaiming, "we will whip the Yankees, or give them a right to a small part of our soil--say 2 feet by 6 feet." Once the Tar Heels experienced combat, their attitudes changed. One rifleman recorded: "We came to a Yankee field hospital ... we moved piles of arms, feet, hands." By 1865, the unit's survivors reflected on their experiences, wondering "when and if I return home--will I be able to fit in?" Drawing on letters, journals, memoirs and personnel records, this history follows the civilian-soldiers from their mustering-in to the war's final moments at Appomattox. The 30th North Carolina had the distinction of firing at Abraham Lincoln on July 12, 1864, as the president stood upon the ramparts of Ft. Stevens outside Washington, D.C., and firing the last regimental volley before the surrender of the Army of Northern Virginia.

The Paradox of Tar Heel Politics Aug 27 2022 How can a state be represented by Jesse Helms and John Edwards at the same time? Journalist Rob Christensen answers that question and navigates a century of political history in North Carolina, one of the most politically vibrant and competitive southern states, where neither conservatives nor liberals, Democrats nor Republicans, have been able to rest easy. It is this climate of competition and challenge, Christensen argues, that enabled North Carolina to rise from poverty in the nineteenth century to become a leader in research, education, and banking in the twentieth. In this new paperback edition, Christensen provides updated coverage of recent changes in North Carolina's political landscape, including the scandals surrounding John Edwards and Mike Easley, the defeat of U.S. senator Elizabeth Dole, the election of the state's first woman governor, and voters' approval of an African American candidate for president. The book provides an overview of the run-up to the 2010 elections and explains how North Carolina has become, arguably, the most politically competitive state in the South.

The Tar Heel State Sep 28 2022 A comprehensive, illustrated history of North Carolina spanning from the colonial period to the twenty-first century. When first released in 2005, *The Tar Heel State* was celebrated as a comprehensive contribution to North Carolina's historical record. In this revised edition, historian Milton Ready brings the text up to date, sharpens his narrative on the periods surrounding the American Revolution and the Civil War, and offers new chapters on the 1920s; World War II and the 1950s; and the confrontation between Jim Hunt, North Carolina's longest-serving governor, and Jesse Helms, a transformational, if controversial, political presence in the state for more than thirty years. Ready's distinctive view of the state's history integrates tales of famous pioneers, statesmen, soldiers, farmers, and captains of industry; as well as community leaders with often-marginalized voices, including those of African Americans, women, and the LGBTQ+ community that have roiled North Carolina for decades. This beautifully illustrated volume gives readers a view of North Carolina that encompasses perspectives from the coast, the Tobacco Road region, the Piedmont, and the mountains. From the civil rights struggle to the building of research triangles, triads, and parks, Ready recounts the people, events, and dramatic demographic shifts since the 1990s, as well as the state's role in the rise of modern political conservatism and subsequent emergence as a modern megastate. In a concluding chapter Ready assesses the current state of North Carolina, noting the conflicting legacies of progressivism and conservatism that continue to influence the state's political, social, and cultural identities. "Ready provides a skillful and well-written addition to the state's historical literature." —Jeffrey Crow, author of *New Voyages to Carolina: Reinterpreting North Carolina History* "An eminently readable, fast-paced, and thorough survey of North Carolina's past." —Alan D. Watson, University of North Carolina at Wilmington "A scholarly and compelling story of the divergent experiences of the state's masses—full of interesting facts and details that are often absent in other studies on the same subject." —Joyce Blackwell, president, The Institute for Educational Research, Development and Training "It is essential reading for anyone who seeks to understand the history of North Carolina and will be of immense benefit to those interested in the roles African Americans have played throughout the history of the state." —Olen Cole Jr., North Carolina A&T State University

Print News and Raise Hell Nov 18 2021 For over 125 years, the Daily Tar Heel has chronicled life at the University of North Carolina at Chapel Hill and at times pushed and prodded the university community on issues of local, state, and national significance. Thousands of students have served on its staff, many of whom have gone on to prominent careers in journalism and other influential fields. Print News and Raise Hell engagingly narrates the story of the newspaper's development and the contributions of many of the people associated with it. Kenneth Joel Zogry shows how the paper has wrestled over the years with challenges to academic freedom, freedom of speech, and freedom of the press, while confronting issues such as the evolution of race, gender, and sexual equality on campus and long-standing concerns about the role of major athletics at an institution of higher learning. The story of the paper, the social media platform of its day, uncovers many dramatic but perhaps forgotten events at UNC since the late nineteenth century, and along with many photographs and cartoons not published for decades, opens a fascinating window into Tar Heel history. Examining how the campus and the paper have dealt with many challenging issues for more than a century, Zogry reveals the ways in which the history of the Daily Tar Heel is deeply intertwined with the past and present of the nation's oldest public university.

Evening News Mar 22 2022 Eileen Reeves examines a web of connections between journalism, optics, and astronomy in early modern Europe, devoting particular attention to the ways in which a long-standing association of reportage with covert surveillance and astrological prediction was altered by the near simultaneous emergence of weekly newsheets, the invention of the Dutch telescope, and the appearance of Galileo Galilei's astronomical treatise, *The Starry Messenger*. Early modern news writers and consumers often understood journalistic texts in terms of recent developments in optics and astronomy, Reeves demonstrates, even as many of the first discussions of telescopic phenomena such as planetary satellites, lunar craters, sunspots, and comets were conditioned by accounts of current events. She charts how the deployment of particular technologies of vision—the telescope and the camera obscura—were adapted to comply with evolving notions of objectivity, censorship, and civic awareness. Detailing the differences between various types of printed and manuscript news and the importance of regional, national, and religious distinctions, *Evening News* emphasizes the ways in which information moved between high and low genres and across geographical and confessional boundaries in the first decades of the seventeenth century.

Shanghai Diary Jun 25 2022 By the late 1930s, Europe sat on the brink of a world war. As the holocaust approached, many Jewish families in Germany fled to one of the only open port available to them: Shanghai. Once called "the armpit of the world," Shanghai ultimately served as the last resort for tens of thousands of Jews desperate to escape Hitler's "Final Solution." Against this backdrop, 11-year-old Ursula Bacon and her family made the difficult 8,000-mile voyage to Shanghai, with its promise of safety. But instead of a storybook China, they found overcrowded streets teeming with peddlers, beggars, opium dens, and prostitutes. Amid these abysmal conditions, Ursula learned of her own resourcefulness and found within herself the fierce determination to survive.
