The Law of Capital Markets in the EU Jun 25 2019 This authoritative textbook offers a thorough, theoretical and practical overview of the current EU legal framework applicable to capital markets. It is intended to enable a critical analysis of the overall regulatory principles as well as the interaction between market actors and EU law which has shaped the regulatory agenda both at national and EU level. The book gives an overview of the foundations of EU capital markets and touches upon issuer disclosure obligations, inappropriate market practices and gatekeepers. EU law is the main focus, complemented by comparative analysis where applicable, primarily relating to UK, French and German laws. Ideal for upper-level undergraduate or graduate law students taking a module in Capital Markets Law, Securities Regulation, Corporate Finance Law or EU Company Law. Also useful for accounting, business or economics MSc students who need to broaden their understanding of the legal aspects of capital markets, and for academics and policy makers.

Language and Legal Interpretation in International Law Oct 22 2021 Language and Legal Interpretation in International Law sheds light on the complicated process of language interpretation that adjudicators (judges and arbitrators) and legal practitioners adopt when they act within international legal systems. The book also analyzes the role that language and the diversity of languages and national legal cultures plays in different international legal systems.

Certification - Trust, Accountability, Liability Jul 19 2021 This book offers an in-depth analysis of the function of certification in general and of certification systems in a range of different sectors. The authors examine certification from both a theoretical and a practical standpoint and from the perspectives of different disciplines, including law, economics, management, and the social sciences. They also discuss instruments that help ensure the quality of certification, which can range from public law measures such as accreditation, to private law incentives, to deterrents, such as liability towards victims. Further, they assess the role of competition between certification bodies. Readers will learn the commonalities as well as the necessary distinctions between certification bodies in various fields, which may stem from the different functions they serve. These similarities and differences may also be the result of different types of damage that the certified producer or service provider could potentially cause to individuals or to the public at large. Often, companies use certification bodies as an argument to assure the general public, e.g. regarding the safety of medical products. Closer inspection reveals, however, that sometimes certification bodies themselves lack credibility. The book offers essential information on the benefits and pitfalls associated with certification.

Regulating Credit Rating Agencies Jan 13 2021 Saline Darbellay analyzes the obvious system relevance of credit rating agencies in depth and assesses the possible options for regulatory responses to this systemic issue. Thereby, the book is based on a fruitful comparative legal approach and forum.

Revisiting Proportionality in International and European Law Oct 02 2022 In this edited volume, scholars from a wide range of areas of international law consider whose interests are at stake in the application of the principle of proportionality. In so doing, the volume casts new light on this important principle.

The Foundations and Future of Financial Regulation Jul 07 2020 Financial regulation has entered into a new era, as many foundational economic theories and policies supporting the existing infrastructure have been and are being questioned following the financial crisis. Goodhart et al's seminal monograph "Financial Regulation: Why, How and Where Now?" (Routledge:1998) took stock of the extent of financial innovation and the maturity of the financial services industry at that time, and mapped out a new regulatory roadmap. This book offers a timely exploration of the "Why, How and Where Now" of financial regulation in the aftermath of the crisis in order to map out the future trajectory of financial regulation in an age where financial stability is being emphasised as a key regulatory objective. The book is split into four sections: the objectives and regulatory landscape of financial regulation; the regulatory regime for investor protection; the regulatory regime for financial institutional safety and soundness; and macro-prudential regulation. The discussion ranges from theoretical and policy perspectives to comprehensive and critical consideration of financial regulation in the specifics. The focus of the book is on the substantive regulation of the UK and the EU, as critical examination is made of the unravelling and the future of financial regulation with comparative insights offered where relevant especially from the US. Running throughout the book is consideration of the relationship between financial regulation, financial stability and the responsibility of various actors in governance. This book offers an important contribution to continuing reflections on the role of financial regulation, market discipline and corporate responsibility in the financial sector, and upon the roles of regulatory authorities, markets and firms in ensuring the financial health and security of all in the future.

Oregon Revised Statutes Jun 17 2021

EU Law: Text, Cases, and Materials May 05 2020 The fifth edition of EU Law: Text, Cases, and Materials provides clear and insightful analysis of European Law accompanied by carefully chosen extracts from a range of materials. This edition looks in detail at the way in which the Treaty of Lisbon has radically changed both the institutional and substantive law of the European Union.

European Capital Markets Law Sep 08 2020 European capital markets law has developed rapidly in recent years. The former directives have been replaced by regulations and numerous implementing legal acts aimed at ensuring a level playing field across the EU. The financial crisis has given further impetus to the development of a European supervisory structure. This book systematises the European law and examines the underlying concepts from a broadly interdisciplinary perspective. National experiences in selected Member States - Austria, France, Germany, Italy, Spain, Sweden and the United Kingdom - are also explored. The first chapter deals with the foundations of capital markets law in Europe, the second explains the basics, and the third examines the regime on market abuse. Chapter four explores the disclosure system and chapter five the roles of intermediaries, such as financial analysts, rating agencies and proxy advisers. Short selling and high frequency trading is described in chapter six. Chapter seven deals with financial services and chapter eight explains compliance and corporate governance in investment firms. Chapter nine illustrates the regulation of benchmarks. Finally, chapter ten deals with public takeovers. Throughout the book emphasis is placed on legal practice, and frequent reference is made to the key decisions of supervisory authorities and courts.

Health Politics in Europe Nov 10 2020 Health Politics in Europe: A Handbook is a major new reference work, which provides historical background and up-to-date information and analysis on health politics and health systems throughout Europe. In particular, it captures developments that have taken place since the end of the Cold War, a turning point for many European health systems, with most post-communist transition countries privatizing their state-run health systems, and many Western European health systems experimenting with new public management and other market-oriented health reforms. Following three introductory, stage-setting chapters, the handbook offers country cases divided into seven regional sections, each of which begins with a short regional outlook chapter that highlights the region's common characteristics and divergent paths taken by the separate countries, including comparative data on health system financing, healthcare access, and the political salience of health. Each regional section contains at least one detailed main case, followed by shorter treatments of the other countries in the region. Country chapters feature a historical overview focusing on the country's progression through a series of political regimes and the consequences of this history for the health system; an overview of the institutions and functioning of the contemporary health system; and a political narrative tracing the politics of health policy since 1989. This political narrative, the core of each country case, examines key health reforms in order to understand the political motivations and dynamics behind them and their impact on public opinion and political legitimacy. The handbook's systematic structure makes it useful for country-specific, cross-national, and topical research and analysis.

Treatise on International Criminal Law Aug 27 2019 This is the first volume of an authoritative three-volume treatise on international criminal law. The text provides comprehensive treatment of issues relevant to the foundations, general part of international criminal law, and general principles of international criminal justice.

Frontiers of International Economic Law Jul 31 2022 *Frontiers of International Economic Law: Legal Tools to Confront Interdisciplinary Challenges* offers innovative interdisciplinary solutions to global challenges along four themes: facing economic crises and uncertainties, confronting environmental challenges, considering human rights and development objectives, and finally, regulating energy transit and new technologies.

Directory of Corporate Counsel, Spring 2020 Edition Jan 01 2020

Employment Law in Context Mar 27 2022 A contextual, rigorous treatment of employment law, featuring a running case example to show exactly how the law works, and including extracts from key cases and source materials.

International Law Nov 30 2019 An authoritative and engaging work, combining straightforward exposition with extensive footnotes for further research.

Criminal Law Sep 28 2019 Jonathan Herring's unique and bestselling approach of separating out the doctrinal and theoretical aspects of the law, alongside expertly selected extracts, makes this book enduringly popular with students and teachers.

Czech and Central European Yearbook of Arbitration - 2012: Party Autonomy versus Autonomy of Arbitrators Dec 12 2020 Following the first volume of the Czech (& Central European) Yearbook of Arbitration (CYArb), the second volume of CYArb thematically concurs that the points of friction between arbitration, as an alternative dispute resolution mechanism are the freedom parties have in setting up the methods and mechanisms for the dispute settlement, and the state organized court proceedings with its obligatory jurisdiction and strict rules. The state organized court proceedings guarantee the firm borders and equality of means regarding the protection of the fundamental rights of the parties during the proceedings. The primary focus of CYArb is the issue of autonomy throughout the arbitration process. The principle of autonomy represents the backbone of arbitration as the ADR mechanism. It provides to the parties the necessary freedom to stipulate the adequate method for the solution of the dispute. On the other hand, the autonomous approach of the parties creates an informal relationship among the subjects involved in dispute resolution. The informality provides room for the autonomy of the arbitrators or that of the arbitral tribunal, be it in ad hoc or institutional proceedings on how to advance the dispute. The CYArb project aims to highlight the (potential) pitfalls of each of the categories of the autonomous parties present during the various types of arbitral proceedings in order to analyze the role of autonomy as a leading principle in the ADR mechanisms in its mutual interaction. The topic therefore provides a wide spectrum of interesting issues to be addressed from the practice and academic points of view, particularly with regard to the comparison of the specific national and international approaches of the permanent arbitral courts. The project concept and editors are drawn from Czech Yearbook of International Law - CYIL. The ideological

similarity between CYIL and CYArb is primarily reflected in its concept. The third volume of CYIL is in preparation and will be published by JURIS. The CYArb annual volume will be published exclusively in English with abstracts of the articles provided in Czech/Slovak, French, German, Polish, Russian and Spanish. The website dedicated to the project, www.czechyearbook.org is operational in a total of 16 languages. A vital part of the project is the cooperation with leading figures and institutes in the field. In the Czech Republic, endeavor has the cooperation of the particular departments of the following institutions: - University of West Bohemia in Pilsen, Faculty of Law, Department of International Law & Department of Constitutional Law - Masaryk University in Brno, Faculty of Law, Department of International and European Law - VSB - TU Ostrava, Faculty of Economics, Department of Law - Institute of State and Law, Academy of Sciences of the Czech Republic in the Slovak Republic: - Pavol Jozef Šafárik University in Košice, Faculty of Law, Department of Commercial Law Non-academic institutions participating in the CYArb Project: - International Arbitral Centre of the Austrian Federal Economic Chamber, Vienna. - Court of International Commercial Arbitration attached to the Chamber of Commerce and Industry of Romania, Bucharest. - Arbitration Court attached to the Hungarian Chamber of Commerce and Industry, Budapest - Arbitration Court attached to the Economic Chamber of the Czech Republic and Agricultural Chamber of the Czech Republic, Prague - Arbitration Court attached to the Czech-Moravian Commodity Exchange Kladno (Czech Republic) - ICC National Committee Czech Republic - The Court of Arbitration at the Polish Chamber of Commerce in Warsaw

Law Enforcement and the History of Financial Market Manipulation Mar 15 2021 First Published in 2014. Routledge is an imprint of Taylor & Francis, an informa company.

EU Constitutional Law Jun 29 2022 This title is a comprehensive textbook of EU constitutional law, setting out the structure, values, procedures, and policies of the European Union. It is a first point of reference for issues of EU constitutional law. The book encompasses six major parts. The first part addresses the formation history of the European Union, the treaties, the accessions, and the withdrawal of the United Kingdom. The second part covers the competences of the European Union. It contains an extensive analysis of the key constitutional principles governing the exercise of competences by the Union and the balance of power between the Union and its Member States, followed by an in-depth analysis of EU citizenship and the four freedoms, followed by an overview of the main internal and external policy domains. The third part addresses the role and workings of the various institutions (European Council, Council, European Parliament, Commission, European Court of Justice, and European Central Bank), the position of the Member States of the Union, and various other institutional matters. Part four explores the various decision-making processes, addressing not only the legislative and executive decision-making, but also the budget, CFSP, and external action. The fifth part looks at the legal instruments and the position of EU law in the EU and national legal orders, with an attention to the key principles of primary and direct effect, and the role of fundamental rights and the Charter of Fundamental Rights. The final part sets out the complete and coherent system of judicial protection in the European Union, offering an overview of the various courses of action before the EU courts and in the national legal orders to enforce EU law or to obtain judicial protection.

Brussels I Bis Jul 27 2019 Offering a comprehensive commentary on the Brussels I Bis Regulation, chapters outline the origins and evolution of each article before delving into their interpretation in view of the case law of the European Court of Justice. Its exhaustive evaluation of the corresponding case law demonstrates key precedents which can be applied to practical problems in the field related to jurisdiction, recognition and enforcement of decisions.

The Western Codification of Criminal Law Dec 24 2021 This volume addresses an important historiographical gap by assessing the respective contributions of tradition and foreign influences to the 19th century codification of criminal law. More specifically, it focuses on the extent of French influence - among others - in European and American civil law jurisdictions. In this regard, the book seeks to dispel a number of myths concerning the French model's actual influence on European and Latin American criminal codes. The impact of the Napoleonic criminal code on other jurisdictions was real, but the scope and extent of its influence were significantly less than has sometimes been claimed. The overemphasis on French influence on other civil law jurisdictions is partly due to a fundamental assumption that modern criminal codes constituted a break with the past. The question as to whether they truly broke with the past or were merely a degree of reform touches on a difficult issue, namely, the dichotomy between tradition and foreign influences in the codification of criminal law. Scholarship has unfairly ignored this important subject, an oversight that this book remedies.

Multinational Enterprises and the Law Feb 11 2021 This leading text in the field covers all the major regulatory areas relating to the operations of multinational enterprises, analysing them not only in a legal but also a political and economic context. It is a definitive reference work for students, researchers, and practitioners working with multinational enterprises.

United States Statutes at Large Feb 23 2022 Volumes for 1950-19 contained treaties and international agreements issued by the Secretary of State as United States treaties and other international agreements.

Failings of the International Court of Justice Mar 03 2020 Failings of the International Court of Justice critically examines the jurisprudence of the International Court of Justice. Even though the legal instrument that establishes the Court provides that its judgments have no formal precedential value, those judgments are treated as authoritative by international lawyers throughout the world. In this book, A. Mark Weisburd argues that the Court's decisions are, in a large minority of cases, poorly reasoned and doubtful as a matter of law, and therefore ought not to be accorded the deference they receive. The book seeks to demonstrate its thesis by a careful review of the Court's errors. It begins with an examination of the law that created and empowered the Court. It then describes the body of law upon which the Court was intended to base its decisions, and the mistakes in the arguments supporting the Court's drawing legal rules from other sources. The book goes on to analyze in detail cases in which the Court has made serious legal errors, first addressing procedural errors, then turning to mistakes in the application of substantive international law. The book closes with a quantitative summing up of the Court's performance, and a tentative explanation for its relatively disappointing record.

European Yearbook of International Economic Law 2020 Nov 22 2021

Trade, Investment and Labour Aug 20 2021 The book examines how international economic law affects the ability of states to regulate labour. It analyses the interactions between relevant norms and explains how linkages between economic law and labour navigate between two notions: fair competition and fundamental rights.

Pluralism or Universalism in International Copyright Law Jan 31 2020 In a world where powerful intermediaries like Google and Facebook are de facto regulators of the communication of copyright-protected works, the democratization of access to content has both substantially expanded the availability of new markets and dramatically increased copyright infringements. Does this mean that the long-sought ideal of a "universal" copyright regulation, which would harmoniously combine effective protection of intellectual creations with public interest goals, is a lost cause? Taken together, the contributions to this insightful and thoroughly researched book suggest that despite the prevailing labyrinthine mosaic of divergent national responses to fragmentation at international level, the foundations of a universal approach can be found in the interaction of regional, national and international copyright law instruments when responding to current and emerging technologies. Emphasizing the adaptation of copyright law to the needs of the information society, this volume provides critical approaches by leading copyright scholars on whether pluralism or universalism is the appropriate path to follow for the development of international copyright law. The authors deal with such issues and topics as the following: the application of core copyright law principles worldwide; authorship, rights and exceptions in the international copyright acquis; Internet copyright enforcement; global collective management of copyright; copyright contracts; database and design rights; intermediary liability; the global reach of the U.S. Fair Use doctrine; World Intellectual Property Organization's role and strategy in international copyright lawmaking; and bilateral trade and investment agreements involving copyright. Specific evolutions and emerging trends in national and regional digital copyright laws are analyzed and assessed as they have developed in the European Union, the United States, Canada and Australia, as well as in several Asian and African countries. Throughout, attention is paid to compatibility with the Berne Convention, the perceived core of copyright law in the international copyright acquis, and the key question of the balancing of copyright law with fundamental rights from an international and comparative law perspective. As a comprehensive analysis of how core copyright law concepts and principles function in today's fragmented copyright legal system, this book has no peers. Its detailed treatment of numerous specific instruments and regimes, as well as its insightful approaches to the future of international copyright lawmaking, will prove of immeasurable value to lawyers, judges, policy makers, academics and researchers working in the field of copyright law.

Directory of Corporate Counsel Oct 10 2020 Completely updated for 2015 - 2016, the Directory of Corporate Counsel remains the only comprehensive source for information on the corporate law departments and practitioners of the companies of the United States and Canada. Profiling over 22,000 attorneys and more than 5,000 companies, it supplies complete, uniform listings compiled through a major research effort, including information on company organization, department structure and hierarchy, and the background and specialties of the attorneys. This newly revised 2 volume edition is easier to use than ever before and includes five quick-search indexes to simplify your search: Corporations and Organizations Index Geographic Index Attorney Index Law School Alumni Index Nonprofit Organizations Index Former 2014 - 2015 Edition: ISBN 9781454843474 Former 2013 - 2014 Edition: ISBN #9781454825913 Former 2012 - 2013 Edition: ISBN #9781454809593

European External Action Service Nov 03 2022 In European External Action Service, Mauro Gatti provides a legal analysis of the EU's 'foreign ministry' and assesses its capability to promote coherence in EU external relations.

An Institutional Approach to the Responsibility to Protect Jan 25 2022 Covering the main political organs of the UN, important regional and security organizations, international judicial institutions and the regional human rights protection systems, An Institutional Approach to the Responsibility to Protect examines the roles and responsibilities of the international community regarding the responsibility to protect. It also proposes improvements to the current system of collective security and human rights protection.

China Review International Oct 29 2019

Folk on the Delaware General Corporation Law May 29 2022 Because Delaware corporate law has virtually become national corporate law, its statutes and cutting-edge case law regarding corporations and alternative business entities have attracted practitioners nationwide to look to Delaware as the place of formation for corporations and other business entities. The definitive section-by-section guide to the country's most important corporate law, the Sixth Edition of Folk on the Delaware General Corporation Law is the place to turn for accurate, up-to-date, authoritative coverage of the Delaware statute. Its uniquely logical code section organization with penetrating and extensively annotated commentary brings you the best in: Effective strategies and options for specific business decisions and activities under the statute Detailed analysis of each key statutory provision and judicial decision Coverage of all the major cases, many of them unreported and unavailable in any other source Analysis organized by code section, with incisive and extensively annotated commentary Because it is a widely accepted authority in the field, Folk on the Delaware General Corporation Law is regularly cited by courts in states other than Delaware. Its section-by-section coverage makes it easy to quickly find the complete law text and analysis, including astute commentary on recent legislation and the most significant cases (including unreported opinions) with special attention to the more complex areas of practical concern.

Law Enforcement by EU Authorities Apr 27 2022 EU law and governance have faced a new development - the proliferation of EU enforcement authorities, which have grown in number over the last 15 years. These entities, either acting alone or together with national enforcement authorities, have been investigating and sanctioning private actors on their compliance with EU law. Law Enforcement by EU Authorities investigates whether the system of control (in terms of both judicial and political accountability) has evolved to support the new system of law enforcement in the EU.

Asian Courts in Context Sep 01 2022 Analyzes courts in fourteen selected Asian jurisdictions to provide the most up-to-date and comprehensive interdisciplinary book available.

Bibliography of the International Court of Justice Sep 20 2021 This publication contains bibliographic details of works concerning or referring to the International Court of Justice which were published between 2004 and 2009 and received by the Registry of the Court.

International Law and the Use of Force Aug 08 2020 This fully updated fourth edition clearly and comprehensively explains the law on the use of force in international law, including use of force by States, the role of the UN, and the role of regional organisations in the maintenance of international peace and security.--

The Regulatory Aftermath of the Global Financial Crisis Jun 05 2020 The EU and the US responded to the global financial crisis by changing the rules for the functioning of financial services and markets and by establishing new oversight bodies. With the US Dodd-Frank Act and numerous EU regulations and directives now in place, this book provides a timely and thoughtful explanation of the key elements of the new regimes in both regions, of the political processes which shaped their content and of their practical impact. Insights from areas such as economics, political science and financial history elucidate the significance of the reforms. Australia's resilience during the financial crisis, which contrasted sharply with the severe problems that were experienced in the EU and the US, is also examined. The comparison between the performances of these major economies in a period of such extreme stress tells us much about the complex regulatory and economic ecosystems of which financial markets are a part.

Life without Parole May 17 2021 Is life without parole the perfect compromise to the death penalty? Or is it as ethically fraught as capital punishment? This comprehensive, interdisciplinary anthology treats life without parole as "the new death penalty." Editors Charles J. Ogletree, Jr. and Austin Sarat bring together original work by prominent scholars in an effort to better understand the growth of life without parole and its social, cultural, political, and legal meanings. What justifies the turn to life imprisonment? How should we understand the fact that this penalty is used disproportionately against racial minorities? What are the most

promising avenues for limiting, reforming, or eliminating life without parole sentences in the United States? Contributors explore the structure of life without parole sentences and the impact they have on prisoners, where the penalty fits in modern theories of punishment, and prospects for (as well as challenges to) reform.

The EU Regulations on the Property Regimes of International Couples Apr 03 2020 This article-by-article Commentary on EU Regulations 2016/1103 and 2016/1104 critically examines the uniform rules adopted by the EU to deal with the property relations of international couples, both married and in registered partnerships. Written by experts from a variety of European countries, it offers a comprehensive side-by-side discussion of the two Regulations to provide context and a deeper understanding of the issues of jurisdiction, applicable law and recognition of judgements covered.
