Faith, Gender, and Activism in the Punjab Conflict Dec 24 2021 Punjab was the arena of one of the first major armed conflicts of post-colonial India. During its deadliest decade, as many as 250,000 people were killed. This book makes an urgent intervention in the history of the conflict, which to date has been characterized by a fixation on sensational violence—or ignored altogether. Mallika Kaur unearths the stories of three people who found themselves at the center of Punjab's human rights movement: Baljit Kaur, who armed herself with a video camera to record essential evidence of the conflict; Justice Ajit Singh Bains, who became a beloved "people's judge"; and Inderjit Singh Jaijee, who returned to Punjab to document abuses even as other elites were fleeing. Together, they are credited with saving countless lives. Braiding oral histories, personal snapshots, and primary documents recovered from at-risk archives, Kaur shows that when entire conflicts are marginalized, we miss essential stories: stories of faith, feminist action, and the power of citizen-activists.

Panjab Sep 20 2021 Unlike people born in Panjab who have a direct connection with, and hence a memory of the land, I have no liminal or tangible marker of belonging to Panjab. While my family did hail from Panjab, I was neither born here, nor do I live here. I have no address, bank statement, Aadhaar card, passport or land ownership to prove my connection with Panjab. In 2015, Amandeep Sandhu began an investigation that was meant to resolve the 'hole in his heart', his 'emptiness about matters Panjab'. For three years, he crisscrossed the state and discovered a land that was nothing like the one he had imagined and not like the stories he had heard. Present day Panjab prides itself on legends of its military and valorous past even as it struggles with daily horrors. The Green Revolution has wreaked ecological havoc in the state, and a decade and a half of militancy has destabilised its economy and governance. Sikhism the state's eclectic and syncretic religion is in crisis, its gatekeepers brooking no dissent and giving little spiritual guidance. And Panjab has yet to recover from the loss of its other half, now in Pakistan. Underneath it all, though, the old spirit of the land beats away an undercurrent of resistance to power and hegemony that holds the hope that Panjab's unyielding knots can be untied.

*Beyond #MeToo* Jan 25 2022 #MeToo, since its inception, has been a sensation. But did the movement die an inconsequential death? Contrary to popular belief, India has strong legal protections in place for women. However, gender is consistently secondary to class, caste and survival. Therefore, India can't afford—neither socially nor economically—a non-existent future of #MeToo. *Beyond #MeToo: Ushering Women's Era or Just Noise?* brings together accounts and analyses from around the world, exploring the movement against the broader backdrop of feminism and gender. With its in-depth research, case studies, survivor accounts and expert opinions, this book sheds light on the implication of the movement in the post #MeToo era. Does it truly usher in 'women's era' or do they merely create noise? What are these backlashes against #MeToo and should we be prepared for it? The book proves that gender post #MeToo is a matter of life and death.

*Anita Gets Bail* May 05 2020 The judiciary has been the one sturdy dyke that has saved us from the excesses of rulers. But recent events remind us of the cracks that have formed: the quality of individuals apart, even the institutional arrangements that had been put in place to preserve the purity and independence of the institution--the collegium, conventions governing the way cases are to be assigned among judges--have frayed. These cracks provide a dangerous opportunity to political rulers to suborn this institution also. Through actual cases and judgments--of subordinate courts, High Courts, the Supreme Court--Arun Shourie enables us to see how frail and vulnerable this 'last pillar standing' has become. A judge who by a brazen manipulation of facts lets a prominent politician off ... Events and a judgment that let the convicted choose the prosecutor who is to conduct the case against them ... Courts that turn a blind eye to life-and-death reforms even as they preoccupy themselves with trivia ... Courts that deliver ringing judgments and then do not care to look if their directions are being implemented ... Courts that disregard their own judgments on penalizing persons for perjury, for dragging out cases ... Courts that do not think through the consequences, even the predictable consequences of their judgments ... Judges who prevaricate, who look the other way when some of their own fraternity come under a cloud ... A judge who is manifestly unbalanced, judges whose knowledge of the most elementary facts of science is laughable, a judge whose prose even the Supreme Court is unable to comprehend--all of them continue to hand down rulings that affect the fortunes and lives of thousands ... Judges who disregard well-settled principles to such an extent that their colleagues are compelled to make their grave misgivings public...And the non-bailable warrants that are issued for the arrest of Anita, Arun Shourie's ailing wife, for evading summons that were never served, summons that were ostensibly issued for their having built a house that was never built, on a plot they did not own... Through the meticulous examination that is a hallmark of his writing, Arun Shourie leads us through judgments and instances--some hilarious, so many infuriating--and points to things that each of us--judges, lawyers, laypersons like us--can do to retrieve this most vital of institutions.

**Dera Sacha Sauda and Gurmeet RAM Rahim** Jun 25 2019 A journalist's account of investigating Gurmeet Ram Rahim and his empire of exploitation How did a nondescript young man from a farming family become the head of a quasi-religious sect with a million followers willing to die and kill for their 'Pitaji'? The story of the rise of Gurmeet Ram Rahim Singh Insan of the wildly popular Dera Sacha Sauda is anything but ordinary. It allegedly involved sexual exploitation, forced castrations, private militias, illegal trade in arms and opium, and land grab on an untold scale-until the self-styled godman was convicted for one of his many crimes in August 2017. The book opens with an anonymous letter which led to the first-ever journalistic investigation, in 2007-Tehelka's Operation Jhootha Sauda-into the reported criminal activities at the Dera. In the years that followed, the author continued to document the lonely battles for justice against the influential godman who had the might of the Dera's machinery and manpower behind him. This book is as much about the grit and determination of ordinary citizens fighting power systems as it is about the difficulty of investigating crimes committed by the rich and powerful in India today.

*Sunrise over Ayodhya* Jun 17 2021 On 9 November 2019, the Supreme Court, in a unanimous verdict, cleared the way for the construction of a Ram temple at the disputed site in Ayodhya. As we look back, we will be able to see how much we have lost over Ayodhya through the years of conflict. If the loss of a mosque is preservation of faith, if the establishment of a temple is emancipation of faith, we can all join together in celebrating faith in the Constitution. Sometimes, a step back to accommodate is several steps forward towards our common destiny. Through this book, Salman Khurshid explores how the greatest opportunity that the judgment offers is a reaffirmation of India as a secular society.

*Courting Desire* Nov 10 2020 Inquiries into marital patterns can serve as an effective lens to analyze social structures and material cultures not only on the question of sexuality, but also on the nature of a private citizen's engagement with state and law. Through ethnographic research in courtrooms, community, and kinship spaces, the author outlines the transformations in material culture and political economy that have led to renewed negotiations on the institution of marriage in North India, especially in legal spaces. Tracing organically evolving notions of sexual consent and legal subjectivity, *Courting Desire* underlines how non-normative decisions regarding marriage become possible in a region otherwise known for high instances of honor killings and rigid kinship structures. Aspirations for consensual relationships have led to a tentative attempt to forge relationships that are non-normative but grudgingly approved after state intervention. The book traces this nascent and under-explored trend in the North Indian landscape.

*Appointment of Judges to the Supreme Court of India* Aug 20 2021 In *Supreme Court Advocates-on-Record Association v. Union of India*, the Supreme Court of India, by majority, struck down the National Judicial Appointments Commission (NJAC), established to appoint judges to the Supreme Court of India and High Courts. Unsurprisingly, the NJAC judgment has been the subject of a deeply polarized debate in the public sphere and academia. The essays in this volume analyse the NJAC judgment, and provide a rich context to it, in terms of philosophical, comparative, and constitutional issues that underpin it. The work traces the history of judicial appointments in India; analyses constitutional principles behind selecting judges and their application in the NJAC Case; and comparatively examines the judicial appointments process in six select countries-UK, South Africa, Pakistan, Sri Lanka, Canada, and Nepal-enquiring into what makes a good judge and an effective appointments process.
