The Japanese Connection May 05 2020 Early in 1942 the Japanese navy sank the American cruiser Stuart. Our story involves four boatswain mates who were close friends onboard ship and during their subsequent capture and incarceration. They suffer atrocities under the command of a sadistic Sgt. Oki Tashino. When it becomes apparent that the end of the war is imminent and that he will have to face the War Crimes Committee, Tashino switches identities with a dead Japanese soldier. As our story moves forward to the present, the crew of the Stuart is having their annual reunion when word is received that Oki Tashino is alive and touring the U.S. on business. Even if his true identity is revealed, Tashino will remain a free man under the provisions of a 1952 peace treaty that released all War Crimes prisoners, terminating all legal, moral, and humanitarian obligations to individuals who suffered direct consequences of incarceration by Japan during World War II. One week after the reunion, Tashino is found murdered in his hotel room on Long Island. The subsequent police investigation points to a crewmember of the Stuart. But who? Detective Frank Arena is assigned to the case and ultimately discovers the murderer.

The Land Was Ours Nov 30 2019 The coasts of today's American South feature luxury condominiums, resorts, and gated communities, yet just a century ago, a surprising amount of beachfront property in the Chesapeake, along the Carolina shores, and around the Gulf of Mexico was owned and populated by African Americans. Blending social and environmental history, Andrew W. Kahrl tells the story of African American-owned beaches in the twentieth century. By reconstructing African American life along the coast, Kahrl demonstrates just how important these properties were for African American communities and leisure, as well as for economic empowerment, especially during the era of the Jim Crow South. However, in the wake of the civil rights movement and amid the growing prosperity of the Sunbelt, many African Americans fell victim to effective campaigns to dispossess black landowners of their properties and beaches. Kahrl makes a signal contribution to our understanding of African American landowners and real-estate developers, as well as the development of coastal capitalism along the southern seaboard, tying the creation of overdeveloped, unsustainable coastlines to the unmaking of black communities and cultures along the shore. The result is a skillful appraisal of the ambiguous legacy of racial progress in the Sunbelt.
