Acting Jan 28 2020 John Harrop examines how we think and speak about acting. Addressing himself to the intellectual problems associated with the idea of acting, it covers the range of actor training and practice from Stanislavski to the Post-Modern, and looks at the spiritual and moral purposes of acting within society: its danger and self-sacrifice.

Theatre and Boxing Nov 06 2020 Theatre and Boxing focuses on a problem which is of paramount importance for any theatre practitioner and researcher: the actor's believable body. This problem has been taken up by Stanislavski, Meyerhold, Artaud, Brecht, Decroux, Copeau, Grotowski, and many others. It is an essential hurdle for all who practice the theatrical craft or want to study it theoretically. This hurdle can be considered one of the foundations of theatre science and of the relationship between technique, politics and ethics. This book tells the story of a revolution in the work of the actor in the early- and mid-20th century, a period in which the focus of theatrical interest shifted from the emotions to the body. The actor's body became a tool for purveying a dynamic set of actions which often transformed the very actor himself. This new centrality of the body also drew attention to those places in which the body is central: the gym, the boxing ring and the circus with its trapezes and tightropes became, together with the stage, laboratories for the theatre. Thus, in addition to the reformers of the theatre the pages of this book are filled with boxers, acrobats, gymnasts and wrestlers, pursuers of an utopia: the "actor who flies".

Theatrical Reality Apr 11 2021 Performance, dramaturgy and scenography are often explored in isolation, but in Theatrical Reality, Campbell Edinborough describes their connectedness in order to investigate how the experience of reality is constructed and understood during performance. Drawing on sociological theory, cognitive psychology and embodiment studies, Edinborough analyses our seemingly paradoxical understanding of theatrical reality, guided by the contexts shaping relationships between performer, spectator and performance space. Through a range of examples from theatre, dance, circus and film, Theatrical Reality examines how the liminal spaces of performance foster specific ways of conceptualising time, place and reality.

Bertolt Brecht Aug 15 2021 Bertolt Brecht's methods of collective experimentation, and his unique framing of the theatrical event as a forum for change, placed him among the most important contributors to the theory and practice of theatre. His work continues to have a significant impact on performance practitioners, critics and teachers alike. Now revised and reissued, this book combines: an overview of the key periods in Brecht's life and work a clear explanation of his key theories, including the renowned ideas of Gestus and Verfremdung an account of his groundbreaking 1954 production of The Caucasian Chalk Circle an in-depth analysis of his practical exercises and rehearsal methods. As a first step towards critical understanding, and as an initial exploration before going on to further, primary research, Routledge Performance Practitioners are an invaluable resource for students and scholars.

Twentieth Century Theatre: A Sourcebook Jun 01 2020 Twentieth Century Theatre: A Sourcebook is an inspired handbook of ideas and arguments on theatre. Richard Drain gathers together a uniquely wide-ranging selection of original writings on theatre by its most creative practitioners - directors, playwrights, performers and designers, from Jarry to Grotowski and Craig. These key texts span the twentieth century, from the onset of modernism to the present, providing direct access to the thinking behind much of the most stimulating theatre the century has had to offer, as well as guidelines to its present most adventurous developments. Setting theory beside practice, these writings bring alive a number of vital and continuing concerns, each of which is given full scope in five sections which explore the Modernist, Political, Inner and Global dimensions of twentieth century theatre. Twentieth Century Theatre: A Sourcebook provides illuminating perspectives on past history, and throws fresh light on the sources and development of theatre today. This sourcebook is not only an essential and versatile collection for students at all levels, but also directed numerous devised shows which have toured to theatres, schools, community centres and prisons.

Theatre, Globalization and the Cold War Jun 25 2022 This book examines how the Cold War had a far-reaching impact on theatre by presenting a range of current scholarship on the topic from scholars from a dozen countries. They represent in turn a variety of perspectives, methodologies and theatrical genres, including not only Bertolt Brecht, Jerzy Grotowski and Peter Brook, but also Polish folk-dancing, documentary theatre and opera production. The contributions demonstrate that there was much more at stake and a much larger investment of ideological and economic capital than a simple dichotomy between East versus West or socialism versus capitalism might suggest. Culture, and theatrical culture in particular with its high degree of representational power, was recognized as an important medium in the ideological struggles that characterize this epoch. Most importantly, the volume explores how theatre can be reconceptualized in terms of transnational or even global processes which, it will be argued, were an integral part of Cold War rivalries.

The Black Theatre Movement in the United States and in South America Dec 07 2020 El creixement dels moviments sociopolítics entre els anys seixanta i noranta als Estats Units i a Sud-àfrica va establir els fermos fonaments sobre els quals, amb una força i ímpetu sense precedents, es va forjar el teatre negre d'aquests anys. Forma i contingut van sorgir a l'una del compromís polític i artístic adoptat per aquests artistes contra l'imperialisme, el colonialisme i el racisme occidentals. Per primera vegada en la història, el teatre negre dels Estats Units i de Sud-àfrica analitzava i valorava les arrels negres per a poder il·luminar la recerca d'un futur de llibertat. No obstant això, el context sociopolític i les circumstàncies específiques de cada país han generat igualment els trets distintius del teatre afronord-americà i negre sud-africà (incloses les diferències de gènere) manifestos en ramificacions artístiques totalment heterogènies i úniques.

Stanislavski For Beginners Sep 04 2020 Stanislavski was the first person to develop a cogent and practical system of acting. Throughout his life he sought the answers to such fundamental questions as: "What is great acting?" and "How can you find inspiration in every performance?" Stanislavski remains the most important influence on actor training today, and yet many of his ideas are little known, or even misunderstood. Stanislavski For Beginners charts the development of the Stanislavski system. It includes a clear exposition of the key elements of the system and explores his Method of Physical Actions, which he worked on in the years before his death, and which he called "the result of my whole life's work."

The Director and the Stage Aug 27 2022 Beginning with the triple impulses of Naturalism, symbolism and the grotesque, this guide concentrates on the most famous directors of this century - Stanislavski, Reinhardt, Craig, Meyerhold, Piscator, Brecht, Artaud and Grotowski. More practical than theoretical, the author delineates how each director changed the tradition that came before him.

Grotowski, Women, and Contemporary Performance Jul 14 2021 As the first examination of women's foremost contributions to Jerzy Grotowski's cross-cultural investigation of performance, this book complements and broadens existing literature by offering a more diverse and inclusive re-assessment of Grotowski's legacy, thereby probing its significance for contemporary performance practice and research. Although the particularly strenuous physical training emblematic of Grotowski's approach is not gender specific, it has historically been associated with a masculine conception of the performer incarnated by Ryszard Cieslak in *The Constant Prince*, thus overlooking the work of Rena Mirecka, Maja Komorowska, and Elizabeth Albahaca, to name only the leading women performers identified with the period of theatre productions. This book therefore redresses this imbalance by focusing on key women from different cultures and generations who share a direct connection to Grotowski's legacy while clearly asserting their artistic independence. These women actively participated in all phases of the Polish director's practical research, and continue to play a vital role in today's transnational community of artists whose work reflects Grotowski's enduring influence. Grounding her inquiry in her embodied research and on-going collaboration with these artists, Magnat explores the interrelation of creativity, embodiment, agency, and spirituality within their performing and teaching. Building on current debates in performance studies, experimental ethnography, Indigenous research, global gender studies, and ecocriticism, the author maps out interconnections between these women's distinct artistic practices across the boundaries that once delineated Grotowski's theatrical and post-theatrical experiments.

Chinese Theatre and the Actor in Performance Mar 22 2022 This work gives an 'inside' view of Chinese theatre and the actor in performance for the first time. Riley's study is well illustrated with photographs and diagrams and is accessible to anyone interested in theatre, even those with no knowledge of Chinese or Chinese theatre.

Systems of Rehearsal Oct 17 2021 The gap between theory and practice in rehearsal is wide. many actors and directors apply theories without fully understanding them, and most accounts of rehearsal techniques fail to put the methods in context. Systems of Rehearsal is the first systematic appraisal of the three principal paradigms in which virtually all theatre work is conducted today - those developed by Stanislavsky, Brecht and Grotowski. The author compares each system of the work of the contemporary director who, says Mitter, is the Great Imitator of each of them: Peter Brook. The result is the most comprehensive introduction to modern theatre available.

Moving Images, Mobile Bodies Aug 23 2019 The book comprises a series of contributions by international scholars and practitioners from different backgrounds researching in the fields of contemporary visual culture and performance studies. This collection addresses the issue of corporeality as a discursive field (which asks for a "poetics"), and the possible ways in which technology affects and is affected by the body in the context of recent artistic and theoretical developments. The common denominator of the contributions here is their focus on the relationship between body and image expressed as the connection between reality and fiction, presence and absence, private and public, physical and virtual. The essays cover a wide range of topics within a framework that integrates and emphasises recent artistic practices and current academic debates in the fields of performance studies, visual arts, new aesthetics, perception theories, phenomenology, and media theory. The book addresses these recent trends by articulating issues including the relationship between immediate experience and mediated image; performing the image; the body as fictional territory; performative idioms and technological expression; corporeality, presence and memory; interactivity as a catalyst for multimodality and remediation; visibility, performativity and expanded spectatorship; and the tensions

between public space and intimacy in (social) media environments. The main strength of this volume is the fact that it provides the reader with a fresh, insightful and transdisciplinary perspective on the body-image relationship, an issue widely debated today, especially in the context of global artistic and technological transformations.

The book introduces Grotowski to a new generation of theatre students, outlining his contributions to twentieth century performance and placing them in context and in perspective.

The Theatre Makers Feb 27 2020 The seven theatre artists looked at in the following chapters were all practical men of the theatre (one of them, Peter Brook, is still alive and still producing work) who dedicated their lives to working with actors and putting productions on stage.

This classic work on acting and performance is now available once again. In his preface to the original edition, Peter Brook wrote: "Grotowski is unique. Why? Because no one else in the world, to my knowledge no one since Stanislavski, has investigated the nature of acting, its phenomenon, its meaning, the nature and science of its mental-physical-emotional processes as deeply as Grotowski." More recently, Richard Schechner has called Grotowski "one of the four great directors of Western theater." Jerzy Grotowski was born in Poland in 1933. In 1982 he moved to the United States and worked at the University of California. He later moved to Italy, where he continued his unique and intense theatrical investigation. He died in 1999"--Publisher description.

The Purpose of Playing Oct 25 2019 *The Purpose of Playing* provides the first in-depth introduction to modern critical acting, enabling students, teachers, and professionals to comprehend the different aesthetic possibilities available to today's actors. The book presents a comparative survey of the major approaches to Western acting since the nineteenth century, their historical evolution, and their relationship to one another. Author Robert Gordon explores six categories of acting: realistic approaches to characterization (Stanislavski, Vakhtangov, Strasberg, Chekhov); the actor as a scenographic instrument (Appia, Craig, Meyerhold); improvisation and games (Copeau, Saint-Denis, Laban, Lecoq); political theater (Brecht, Boal); exploration of the self and other (Artaud, Grotowski); and performance as cultural exchange (Brook, Barba). The synthesis of these principal theories of dramatic performance in a single text offers practitioners the knowledge they need to contextualize their own practice within the wider field of performance, while encouraging theorists and scholars to be more sensitive to the material realities of artistic practice. "This analysis of major movements and figures from the early nineteenth century to the present is clear, thorough, and penetrating, and its scope across periods, countries, and styles is impressive." --Xerxes Mehta, University of Maryland-Baltimore County Robert Gordon is Reader in Drama, Goldsmiths College, University of London.

Feminist Visions and Queer Futures in Postcolonial Drama Jul 02 2020 In this timely study, Batra examines contemporary drama from India, Jamaica, and Nigeria in conjunction with feminist and incipient queer movements in these countries. Postcolonial drama, Batra contends, furthers the struggle for gender justice in both these movements by contesting the idea of the heterosexual, middle class, wage-earning male as the model citizen and by suggesting alternative conceptions of citizenship premised on working-class sexual identities. Further, Batra considers the possibility of Indian, Jamaican, and Nigerian drama generating a discourse on a rights-bearing conception of citizenship that derives from representations of non-biological, non-generational forms of kinship. Her study is one of the first to examine the ways in which postcolonial dramatists are creating the possibility of a dialogue between cultural activism, women's movements, and an emerging discourse on queer sexualities.
