to know: What does one do with critique? Fortunately, some of the most provocative self-critical intellectuals, from the postwar period to the postmodern present, have wrestled with this. Joel Pfister, in *Critique for What?*, criss-crosses the Atlantic to take stock of exciting British and US cultural studies, American studies, and Left studies that challenge the academic critique-for-critique's-sake and career's-sake business and ask: Critique for what and for whom? Historicizing for what and for whom? Politicizing for what and for whom?

Here New Left revisionary socialists, members of the unpartied Left, cultural studies theorists, American studies scholars, radical historians, progressive literary critics, and early proponents of transnational analysis interact in what amounts to a lively book-length strategy seminar. British political intellectuals, including Raymond Williams, E. P. Thompson, Stuart Hall, and Raphael Samuel, and Americans, including F. O. Matthiessen, Robert Lynd, C. Who were we in 1776, in 1865, or 1968, and is there any continuity in character between the we of those years and the nearly 300 million people living in the radically different America of today? mobile and less religious than their ancestors, or that they are more focused on money and consumption—and reveals instead how greater security and wealth have only reinforced the independence, egalitarianism, and commitment to community that characterized our people from the earliest years. Skillfully drawing on personal stories of representative Americans, Fischer shows that affluence and social progress have allowed more people to participate fully in cultural and political life, thus broadening the category of "American" —yet at the same time what

it means to be an American has retained surprising continuity with much earlier notions of American character. Firmly in the vein of such classics as *The Lonely Crowd* and *Habits of the Heart*—yet challenging many of their conclusions—*Made in America* takes readers beyond the simplicity of headlines and the actions of elites to show us the lives, aspirations, and emotions of ordinary Americans, from the settling of the colonies to the settling of the suburbs.

Cultural Studies is a collection of new essays by recognised experts from around the world on various aspects of the new discipline of Latin American cultural studies. Essays are grouped in five distinct but interconnected sections focusing respectively on: (I) the theory of Latin American cultural studies; (II) the icons of culture; (III) culture as a commodity; (IV) culture as a site of resistance; and (V) everyday cultural practices. The essays range across a wide gamut of theories about Latin American culture; some, for example, analyse the role of the state in the formation of the nation, and others focus on the resonance of modern-day practices as diverse as football in Argentina, TV in Uruguay, cinema in Brazil, and the 'bolero' and soaps of modern-day Mexico. Contemporary Latin American Cultural Studies has an introduction setting the ideas explored in each section in their proper context. The essays are written in jargon-free English (all Spanish terms have been translated into English), and are supplemented by a concluding section with suggestions for further reading.
