Words in Time and Place Jan 12 2021 Did you know that the English language has over 150 words for the adjective 'drunk' developed over 1,000 years? Be prepared to learn words you have never heard before, find out fascinating facts behind everyday words, and be surprised at how lively and varied the English language can be. Published to critical acclaim in 2009, the Historical Thesaurus of the Oxford English Dictionary is the first comprehensive thesaurus in the world to arrange words by meaning in order of first recorded use. Using its unique perspective on how the English language has developed, Words in Time and Place takes 15 themes and explores the language in these areas over time - explaining when new words appeared, where they came from, and what such changes say about times in which they emerged. The themes chosen are varied, universal topics and show the semantic range of the thesaurus and what it can tell us about the words used in areas of everyday life. Learn about the different words for dying and money, or types of pop music, as well as words for a privy, oaths, and words for being drunk. Written by the world's leading expert on the English language, David Crystal, the book carries his trademark style of engaging yet authoritative writing. Each chapter features an introduction to the language of that topic, followed by a timeline of vocabulary taken from the historical thesaurus showing all the synonyms arranged in chronological order. The timelines are annotated with additional quotations, facts, and social and historical context to give a clear sense of how words entered the English language, when, and in which context they were used. Words in Time and Place showcases the unique and excellent resource that is the Historical Thesaurus and reveals the linguistic treasures to be found within. Jamaican Speech Forms in Ethiopia Nov 21 2021 This book is the first systematic cross-disciplinary survey on the use of Jamaican English in Ethiopia, describing the dynamics of language acquisition in a multi-lectal and multicultural context. It is the result of over eight years' worth of research conducted in both Jamaica and Africa, and is a recognition of the trans-cultural influence of the "Repatriation Movement" and other diasporic movements. The method and materials adopted in this book point to a constant spread and diffusion of Jamaican culture in Ethiopia. This is reinforced by the universalistic appeal of Rastafarianism and Reggae music and their ability to transcend borders. The data gathered here focus on how an Anglophone-based Creole has developed new speech-forms and has been hybridized and cross-fertilized in contact situations and by new media sources. The book focuses on the use of Jamaican English in four particular domains: namely, school, street, family, and the music studio. Its findings are drawn from an exceptional range of sources, such as field-work and video-recordings, interviews, web-mediated communication, artistic performance and relevant transcriptions. These sources highlight five topics of relevance—language acquisition and choice; English and Jamaican speech forms; hegemonic and minority groups, Rastafarian culture and Reggae music—which are explored in further detail throughout the book. These salient features, in turn, interface with the dynamics of influencing factors, reinforcing circumstances, significance and change. The book represents a journey to the "extreme-outer circle" of English language use, following a circular route away from Africa and back again, with all the languages used (and lost) along the slavery route and inside the plantation complex developing into creolized speech forms and Creoles. Such language use is now making its way back to Africa, with all the incendiary creativity of Reggae and resonant with Rastafarian language.
