Star Trek Oct 29 2019

These Are the Voyages May 29 2022 Hardcover of volume one of "These are the Voyages" trilogy

Star Trek Sex Feb 11 2021 The Sexiest Starship Alive It's how People Magazine would crown the Enterprise's crew if the pop culture stalwart warped into the 23rd century. Captain Kirk's randy reputation old, intergalactic news? Thankfully, this isn't a 'How to Score' guide penned by J.T.K. It's no tell-all memoir to shock and awe, nor cosmic celebrity sex tape full of space babes. Star Trek Sex deals tastefully in the romantically loaded tales of Gene Roddenberry's landmark TV show. And though William Shatner's Kirk is a front and center player, his crew, Spock, Scotty, Uhura, McCoy, Sulu and Chekov, also get a piece of the action. To explore strange new worlds... To seek out new life... Star Trek Sex covers the iconic classic, then warps beyond to Star Trek: Into Darkness and the hip satire of Saturday Night Live, Family Guy and the legendary Howard Stern. It highlights the sexually charged moments of Roddenberry's 'Wagon Train To The Stars' and focuses on those complex themes which helped establish Star Trek as a global Hollywood franchise. At age 4, Will Stape watched Star Trek before he knew the difference between a phaser and a taser. He's one of a handful of freelance writers to sell to Star Trek: The Next Generation. His episode, 'Homeward', with Paul Sorvino (Goodfellas), premiered in the Emmy Award winning show's last season. A year later, he sold to Star Trek: Deep Space Nine, and his script, 'Charity', became 'Prophet Motive' with Wallace Shawn star of The Princess Bride. Stape pitched to Star Trek: Voyager, Deep Space Nine and met with writer/producer Michael Piller for Stephen King's The Dead Zone. He's developed TV show docudramas and his articles appear in Sci-Fi Pulse, Airlock Alpha, McCall's Quilter's Home, Hudson Reporter, Bayonne Style, Shine, OMG! and Yahoo! News. He's owned phasers, but never a taser.

Great Voyages Aug 08 2020 Discover the world through the eyes of the greatest explorers in history. Find out how the world was first circumnavigated by a slave and how travelers overcame the challenge of not having enough to eat and drink while traveling through unknown territory. Experience the excitement of seeing a new land for the first time, tasting new fruits and discovering new animals. This

book focuses on 15 key voyages from around the world: the journeys undertaken by Marco Polo, Ibn Battuta, Zheng He, Christopher Columbus, Ferdinand Magellan, Martin Frobisher, Francis Drake, Maria Sibylla Merian, Captain Cook, Lewis & Clark, Charles Darwin, David Livingstone, Gertrude Bell, Ernest Shackleton, and astronauts who took part in the Moon landings.

Voyages and Visions Jun 17 2021 A much-needed contribution to the expanding interest in the history of travel and travel writing, Voyages and Visions is the first attempt to sketch a cultural history of travel from the sixteenth century to the present day. The essays address the theme of travel as a historical, literary and imaginative process, focusing on significant episodes and encounters in world history. The contributors to this collection include historians of art and of science, anthropologists, literary critics and mainstream cultural historians. Their essays encompass a challenging range of subjects, including the explorations of South America, India and Mexico; mountaineering in the Himalayas; space travel; science fiction; and American post-war travel fiction. Voyages and Visions is truly interdisciplinary, and essential reading for anyone interested in travel writing. With essays by Kasia Boddy, Michael Bravo, Peter Burke, Melissa Calaresu, Jesus Maria Carillo Castillo, Peter Hansen, Edward James, Nigel Leask, Joan-Pau Rubies and Wes Williams.

Star Trek Mar 15 2021

Captains' Logs Dec 12 2020 A lavishly illustrated guide takes readers behind the scenes of every episode of Star Trek and The Next Generation, with additional sections on Deep Space Nine and Voyager. Original. 75,000 first printing.

I Spy Jul 27 2019 "This is a complete history of I Spy and the profound change it evoked in broadcasting, social ideals and racial equality. Rich with interviews and photographs, it discusses I Spy's unique approach to race, co-starring interracial actors as equals. A complete episode guide includes writers, directors, cast, crew, plot synopsis and commentary"--Provided by publisher.

These Are the Voyages Feb 23 2022 These Are the Voyages, the exhaustive, award-winning book series by Marc Cushman, continues, utilizing memos and letters from Star Trek creator Gene Roddenberry, his colleagues, the studios, and the networks. Production reports, TV ratings, vintage press coverage, and interviews combine to document

the events between the end of the Original Series and the beginning of the Trek movie franchise. It's the story of how Roddenberry sought to escape from Star Trek's shadow and stake new ground. Meanwhile, the series stars discovered that their popularity, like Roddenberry's, was tied to a show which simultaneously typecast them. Volume 1 of this two-book set covers the first half of the 1970s, with coverage of Pretty Maids All in a Row, Genesis II, The Questor Tapes, Planet Earth, Strange New Worlds, Star Trek: The Animated Series, and much more. Volume 2 will examine the last half of the decade, including Spectre, "Star Trek Phase II," and 1979's Star Trek - The Motion Picture. The book is over 700 pages within a hardcover bound book.

These Are the Voyages-TOS Jul 31 2022 Marc Cushman's biography of Star Trek(R) the original series (TOS) takes you back in time for the final season of this iconic television show, to the production offices, the writers' room, onto the soundstages, and in front of your TV sets for what many thought would be Star Trek's final voyage. Included are hundreds of memos between Roddenberry, the producers and staff, production schedules, budgets, fan letters, behind-the-scene images, and the TV ratings. You'll find out the real reason Star Trek(R) was cancelled. So buckle your seat belts, this final trek gets really bumpy.

Return to Tomorrow Jan 31 2020 Star Trek: The Motion Picture (1979) is one of the most beguiling and important science fiction films ever made. Its spectacular realization of Gene Roddenberry's inspirational future and humanistic storytelling are a cinematic achievement unlikely ever to be matched. At the same time, the film was a deeply troubled production that rolled without a completed script and saw a wholesale change in visual effects companies barely making its release date. In 1979, Preston Neal Jones was given unparalleled access to the cast and creators of Star Trek: The Motion Picture for what was intended to be a cover story for Cinefantastique magazine. Owing to the late completion of the film and ambitious scope of the manuscript, it was never published until now. This book is a priceless time capsule, an oral history in the words of 60 of the film's cast and creators, interviewed as the film was being prepared for release and nobody had any idea if it would succeed or even be finished on time. From the stars (William Shatner, Leonard Nimoy and the entire cast) to the filmmakers (Gene Roddenberry, Robert Wise) to the brilliant visual effect artists, illustrators, model builders and

technicians who realized the 23rd century on screen (costumes, sets, props, models, music, sound FX and more), no aspect of the film's creation is overlooked. Go behind the scenes of this pivotal sci-fi masterwork and hear the unvarnished, uncensored truth of how it was created.

Irwin Allen's Lost in Space, Volume One Sep 20 2021 The Authorized Biography of a Classic Sci-Fi Series, Volume 1 documents the early career of Irwin Allen. It is a true rags-to-riches story, as Allen ventures from a humble beginning in the Bronx to his later incarnations in Hollywood as an entertainment journalist, radio and television host, a literary agent - all before becoming a successful motion picture producer and director. After winning an Academy Award in 1954, Allen entered the fantasy genre with films such as *The Lost World* and *Voyages to the Bottom of the Sea*. He then rolled the dice again with a move into television, creating and producing *Voyage to the Bottom of the Sea* and, one year later, *Lost in Space*. *Lost in Space* was the first primetime weekly series to take viewers into outer space's strange new alien worlds - something the networks believed impossible on a TV budget and schedule. In this book you'll be whisked back in time to the production offices, writers' conferences, and soundstages for the making of this iconic series. Included are hundreds of memos between Allen and his staff; production schedules; budgets; fan letters; more than 200 rare behind-the-scene images; and the TV ratings for every episode.

To Boldly Go Mar 03 2020

Irwin Allen's Voyage to the Bottom of the Sea Jan 25 2022

Star Trek Adventures - These Are the Voyages Mar 27 2022 These are the Voyages: Volume 1 presents eight ready-to-play missions for Star Trek Adventures. Within this 164 page hardback book, Gamemasters will find the means to test their Starfleet officers at the front line of Starfleet operations.

These Are the Voyages Sep 01 2022 Author Marc Cushman had the honor of befriending both Gene Roddenberry and Robert H. Justman, who cooperated in the development of this three-book series and backed their endorsement with hundreds of never-before-released documents concerning the writing and production of Star Trek, the original series (TOS). After decades of research, hundreds of exclusive interviews, and the inclusion of thousands of documents, from story outlines to scripts to interoffice memos between Roddenberry and his creative staff, correspondences with NBC and Desilu Studios, production schedules, budgets, and even the Nielsen ratings for every episode of the first Star Trek series, *These Are the Voyages* serves as a time machine, taking the reader back to witness the creation, writing and making of Star Trek.--From publisher description.

The Fifty-Year Mission: The Next 25 Years: From The Next Generation to J. J. Abrams Jun 25 2019 Volume two of a fifty-year oral history of Star Trek by the people who were there sharing never-before-told stories.

World Without End Oct 10 2020

Ships of the Line Aug 20 2021 In celebration of one of science fiction's most beloved franchises, an updated edition of the acclaimed

Ships of the Line hardcover collection. They dared to risk it all in a skiff of reeds or leather, on a ship of wood or steel, knowing the only thing between them and certain death was their ship. To explore, to seek out what lay beyond the close and comfortable, every explorer had to embrace danger. And as they did so, what arose was a mystical bond, a passion for the ships that carried them. From the very first time humans dared to warp the fabric of space, escaping from the ashes of the third World War, they also created ships. These vessels have become the icons of mankind's desire to rise above the everyday, to seek out and make the unknown known. And these ships that travel the stellar seas have stirred the same passions as the ones that floated in the oceans. While every captain has wished that their starship could be outfitted in the same manner as the sailing ship H.M.S.

Beagle—without weapons—that proved untenable. From the start, Starfleet realized that each vessel, due to the limited range of the early warp engines, must be able to stand alone against any attack. Thus arose the idea, taken from the days of wooden sailing ships, that every Starfleet vessel must stand as a ship of the line. Through the actions of their captains and crews, countless starships have taken on that role. Here we remember some of those ships and their heroic crews. In celebration of one of science fiction's most beloved franchises, this updated edition of the acclaimed *Ships of the Line* hardcover collection now includes dozens of additional images brought together for the first time in book format—spectacular renderings featured in the highly successful *Star Trek: Ships of the Line* calendar series. With text by Star Trek's own Michael Okuda, the story of each of these valiant starships now comes to life.™, ®, & © 2014 CBS Studios, Inc. Long Distance Voyagers Jun 29 2022 The Moody Blues have sold over 80 million records, and scored Top 20 hits in four different decades. They hit the top in 1965, with a No. 1 single, "Go Now!", and toured with the Beatles (both bands managed by Brian Epstein). But their true breakthrough came in November 1967 with the release of the classic *Days of Future Passed*, the first LP to combine the rock album format with orchestral music, and spawning another No. 1 single: "Nights in White Satin." Overnight, the new genre of "symphonic rock" was born. Advancing this further, Moody Blues founding member Mike Pinder helped develop the Mellotron, a keyboard instrument which could simulate the sound of a string orchestra. This innovation not only gave the Moodies their unique sound, but enabled them to reproduce their epic albums in concert. The Moodies were also the first rock group to champion the "concept album," following *Days of Future Passed* with other thematic classics, such as *In Search of the Lost Chord*; *On the Threshold of a Dream*; *To Our Children's Children's Children*; *A Question of Balance*; and *Long Distance Voyager*. This in-depth biography covers the magnificent 50-plus-year career of the Moody Blues (in two volumes). Exhaustively researched and featuring thousands of vintage interviews, reviews, and record chart statistics, as well as hundreds of photos. *Long Distance Voyagers: The Story of the Moody Blues* will whisk you back in

time and put you on the very threshold of a dream.

The World of Star Trek Dec 24 2021 In *The World of Star Trek*, David Gerrold opens up dialogue on the people, places, and events that made Star Trek one of the most popular series ever. Gerrold discusses what was successful and what wasn't, offering personal interviews with the series' legendary stars and dissecting the trends that developed throughout the seasons. The complete inside story of what happened behind the scenes of the Star Trek universe, from scriptwriters' memos to special effects and more, *The World of Star Trek* is the companion all Trekkies need for the most all-encompassing breakdown and analysis of Star Trek.

A general collection of ... voyages and travels, digested by J. Pinkerton Nov 30 2019

Triangle Sep 28 2019 An unimaginable conflict could cost Kirk's soul...or Spock's life. A dark plan has been unleashed in the galaxy, a design so vast, only a collective—and ruthless—mind like the Totality could have conceived it. Now Captain Kirk must battle the seductive force of the Totality's will. It was reasonable that Captain Kirk and Federation Free Agent Sola Than would fall in love. But no reasoning the the universe could have foreseen the tragedy of Spock's own passion for the same woman. Now this unimaginable conflict could cost Captain Kirk his very soul, and bring death to the proud Vulcan. But in the unimaginable lies their only chance, and the freedom of the galaxy depends on the outcome of the Triangle.

Star Trek: the Official Guide to the Animated Series Nov 10 2020 The first and only guide to the beloved and star-studded Star Trek: The Animated Series, the in-canon (mostly) continuation of the iconic Star Trek: Original Series. Star Trek: The Animated Series (TAS) was a critical success, airing 22 episodes over two seasons and earning the franchise its first Emmy Award in 1975. The show featured the voices of almost the entire original cast, including William Shatner and Leonard Nimoy, along with the original series writers Dorothy Fontana ("Journey to Babel"), David Gerrold ("The Trouble with Tribbles"), acclaimed science-fiction author Larry Niven, and many more. *Star Trek: The Official Guide to The Animated Series* reveals the efforts it took to translate Star Trek: The Original Series into animated form, with a Databank illustrating how the animated series ties into other Star Trek shows. This book provides fans with behind-the-scenes production documents, never-before-seen art, and all-new interviews with the people who produced the Enterprise's new animated adventures.

Star Trek: A Cultural History Apr 27 2022 This book looks at how the original Star Trek became a cultural phenomenon, generating numerous spin-offs and feature films and inspiring multiple series, films, books, etc. In addition to the show's creation and its place in science fiction, the author looks at the series through the prisms of American political history, technology, and fandom.

Best Destiny Apr 03 2020 Events in a distant part of the Federation delay James T. Kirk's retirement from Starfleet and send him to Faramound--a world that takes Kirk on a journey back to his troubled youth. Reprint.

Mingming II & the Impossible Voyage Jun 05 2020 Far to the north of Russia, across the cold waters of the Barents Sea, lies the desolate archipelago known as Franz Josef Land. Hidden away still further to the north and west of those islands is one of the most inaccessible and least known seas on this planet - the Queen Victoria Sea. In his fifth

book of voyages, Roger Taylor describes his successful attempt to sail into those lonely and usually icebound waters. On the way he weathers the most northerly point of the Svalbard islands before sailing due east along 81°North to the north-west coast of Franz Josef Land. Pack-ice would normally render such a route impossible. This voyage, which linked the endpoints of Taylor's two previous Arctic voyages to the north-west and north-east of Svalbard, marks the culmination of nearly fifty years of small-boat ocean sailing. Taylor has been described in the yachting press as 'one of the best sailing writers on this planets' and 'the best-balanced writer you will ever read'. His books combine vivid description with deep reflection, humour, an intimate knowledge of ocean species and a lifetime of practical sea-going experience.

Home is the Hunter Apr 15 2021 A mysterious and powerful alien being banishes Sulu to feudal Japan, Scotty to nineteenth-century Scotland on the eve of revolt, and Chekov to Russia during World War II

These Are the Voyages, Tos Season Two Nov 03 2022 A three-volume definitive history of the Star trek, with each volume featuring a different season of the original series.
