Monet May 29 2022 Monet was the most typical and the most individual Impressionist painter. But while the painter was faithful and persevering in the pursuit of his motifs, his personal life followed a more restless course. Parisian by birth, he discovered painting as a youth in the provinces, where one of his homes, Argenteuil, has come to represent the artistic flowering and official establishment of Impressionism as a movement.

A Day with Claude Monet in Giverny Jun 17 2021 This beautiful slipcased volume offers an intimate tour inside Monet's home and through the idyllic Giverny garden that inspired his most iconic paintings. Monet first spotted the village of Giverny from the window of a train and then relocated to the rural haven outside Paris in 1883. Monet was an artist with a passion for painting landscapes and outdoor scenes, and the garden at Giverny soon became the Impressionist master's greatest artistic accomplishment and a catalyst for his work. In 1890, Monet began renovating it, installing a picturesque water lily pond inspired by the Japanese prints he avidly collected. The setting of Monet's Water Lilies series—his most famous works—it is now the most visited garden of its size in the Western world. The beautifully vivid illustrations of Monet's paintings, his home, and the grounds give readers unprecedented access into the flowery paradise to which Monet dedicated the last forty years of his life. Lovers of garden design and Impressionist art are invited on an intimate tour via this handsome volume.

Claude Monet Sep 20 2021 The quintessential Impressionist Claude Monet created more than 2,500 paintings, drawings, and pastels that radically altered the way art was made and understood. This beautiful book is a comprehensive - and accessible - study of Monet's achievement which sets his rich legacy into the context of his life and times. Instead of reading Monet's work as engaged only with the beauties of nature, Paul Hayes Tucker offers strikingly new perspectives based on a close examination of individual paintings, Monet's biography, and the multiple forces that shaped his aesthetic. Tucker sees the artist's oeuvre as an evolving enterprise that was intricately linked to such cataclysmic events as the Franco-Prussian War and the Commune insurrection of 1870-71, the Dreyfus Affair of 1898, and the First World War. Tucker also explores the demands that Monet placed upon himself, his responses to market pressures, and his steadfast belief in the power of art to express ideas. Combining documentary material with a thorough analysis of the public's reaction to his work, Tucker convincingly demonstrates how Monet was able to achieve enormous success during his lifetime.

[Monet's Table](#) Apr 03 2020 One of the most influential painters of modern times, Claude Monet lived for half his life in the famous house at Giverny. It was after moving here in 1883 with his future second wife, Alice Hoschedézanne -- other regular guests included Rodin, Whistler, Maupassant, Valéry, and one of Monet's closest friends, the statesman Clemenceau. They came to dine in almost ritual form, first visiting Monet's studio and the greenhouses, then having lunch at 11:30 (the time the family always dined, to enable Monet to make the most of the afternoon light). Tea would later be served under the lime trees or near the pond. Guests were never invited to dinner; because Monet went to bed very early in order to rise at dawn. All the guests were familiar with Monet's rigid timetable. The recipes collected in his cooking journals include dishes Monet had encountered in his travels or had come across in restaurants he frequented in Paris as well as recipes from friends, such as Cézanne's

bouillabaisse and Millet's petits pains. For this book, the author Claire Joyes, wife of Madame Monet's great-grandson, has spent years selecting the Monets' favorite recipes and writing a wonderfully evocative introductory text. All of the recipes have been artfully prepared and brought back to life in Monet's own kitchen by master chef Joël Robuchon. Illustrated with sumptuous reproductions of Monet's paintings, spectacular original four-color photographs of Giverny, selected shots of finished dishes, and facsimile pages from the notebooks themselves, this book provides a fascinating and unique insight into the turn-of-the-century lifestyle of one of the world's most celebrated Impressionist painters.

The Paintings of Claude Monet Oct 02 2022 Claude Monet (1840-1926) was a founder of French impressionist painting, and the most consistent and prolific practitioner of the movement's philosophy of expressing one's perceptions before nature, especially as applied to 'plein-air' landscape painting. The term Impressionism is derived from the title of his painting *Impression, Sunrise* (*Impression, 'soleil levant'*). This book is the most comprehensive collection of Claude Monet's Paintings ever published, covering the artist's entire 64 years of creation; a keepsake for the connoisseur of fine art. On 484 pages, this book includes a detailed biography, a resume written by Monet himself (in English and French), and over 900 paintings on 460 colour plates (large format 8½ x 11 inches), as well as a special section of Monet's famous Water Lilies Series, and the Series of the London Parliament Buildings and Bridges. Monet's paintings obtain record prices at auctions. 'Le Pont du chemin de fer à Argenteuil,' an 1873 painting of a railway bridge spanning the Seine near Paris, was bought for a record \$41.4 million at Christie's auction in New York on 6th May 2008. The previous record for Monet's painting stood at \$36.5 million. 'Le bassin aux nymphéas' (from the water lilies series) sold at Christie's 24 June 2008 for £40,921,250 (\$80,451,178) setting a new auction record for the artist.

Mad Enchantment Apr 15 2021 Claude Monet's water lily paintings are among the most iconic and beloved works of art of the past century. Yet these entrancing images were created at a time of terrible private turmoil and sadness for the artist. The dramatic history behind these paintings is little known; Ross King's *Mad Enchantment* tells the full story for the first time and, in the process, presents a compelling and original portrait of one of our most popular and cherished artists. By the outbreak of war in 1914, Monet, then in his mid-seventies, was one of the world's most famous and successful painters, with a large house in the country, a fleet of automobiles and a colossal reputation. However, he had virtually given up painting following the death of his wife Alice in 1911 and the onset of blindness a year later. Nonetheless, it was during this period of sorrow, ill health and creative uncertainty that – as the guns roared on the Western Front – he began the most demanding and innovative paintings he had ever attempted. Encouraged by close friends such as Georges Clemenceau, France's dauntless prime minister, Monet would work on these magnificent paintings throughout the war years and then for the rest of his life. So obsessed with his monumental task that the village barber was summoned to clip his hair as he worked beside his pond, he covered hundreds of yards of canvas with shimmering layers of pigment. As his ambitions expanded with his paintings, he began planning what he intended to be his legacy to the world: the 'Musée Claude Monet' in the Orangerie in Paris. Drawing on letters and memoirs and focusing on this remarkable period in the artist's life, *Mad Enchantment* gives an intimate portrayal of Claude Monet in all his tumultuous complexity, and firmly places his water lily paintings among the greatest achievements in the history of art.

Claude Monet Sep 01 2022 In May of 2010, Gagosian Gallery presented the most significant gathering of late Claude Monet paintings in New York in more than thirty years. The catalogue for the exhibition that the New York Times described as "a gorgeous 'where on earth did this come from?' show," focuses on important subjects drawn from the artist's gardens at Giverny. *Nymphéas*, *Le pont japonais*, and *L'allée de rosiers* are among the most treasured paintings of Monet's long and prodigious career. Reproduced in luscious color are early *Nymphéas* that were first shown in 1909 at the Galerie Durand-Ruel to great critical acclaim. From these delicate, poetic paintings follow the more experimental post-1914 paintings, which were never exhibited during the artist's lifetime. In addition to the 27 sumptuous colour plates, the catalogue is illustrated by numerous colour images of paintings, as well as black-and-white historical photos. It includes a new essay by Paul Hayes Tucker, one of the foremost authorities on Monet and curator of the exhibition; an extract from Michel Butor's seminal 1962 text, "Monet, or the World Turned Upside Down" and a detailed chronology of Monet's life and exhibitions while at Giverny written by leading Monet scholar Charles Stuckey. Also included is a compendium of historical reviews that have been translated from their original French, Italian, or German language and which have been assembled for the first time by Claire Durand-Ruel Snollaerts.

The Great Artists: Claude Monet Dec 24 2021 This introduction to some of the great artists of the past 150 years looks at their lives and inspirations, and showcases a selection of their most significant paintings. Claude Monet was the leading French Impressionist landscape painter. His work featured in the groundbreaking Impressionist exhibition of 1874, where the title of one of his paintings led to the name of the highly influential movement. A feature of his style was to paint en plein air, showing a single subject in different lighting conditions, whether it be trees, haystacks or the water lily ponds in his own garden at Giverny. The book describes Monet's technique, the materials he used, and his impact on his contemporaries as well as successive generations of artists.

Claude Monet Jul 19 2021 An introduction to the life and art of the French Impressionist painter.

Claude Monet Jul 31 2022 For Claude Monet the designation 'impressionist' always remained a source of pride. In spite of all the things critics have written about his work, Monet continued to be a true impressionist to the end of his very long life. He was so by deep conviction, and for his Impressionism he may have sacrificed many other opportunities that his enormous talent held out to him. Monet did not paint classical compositions with figures, and he did not become a portraitist, although his

professional training included those skills. He chose a single genre for himself, landscape painting, and in that he achieved a degree of perfection none of his contemporaries managed to attain. Yet the little boy began by drawing caricatures. Boudin advised Monet to stop doing caricatures and to take up landscapes instead. The sea, the sky, animals, people, and trees are beautiful in the exact state in which nature created them – surrounded by air and light. Indeed, it was Boudin who passed on to Monet his conviction of the importance of working in the open air, which Monet would in turn transmit to his impressionist friends. Monet did not want to enrol at the Ecole des Beaux-Arts. He chose to attend a private school, L'Académie Suisse, established by an ex-model on the Quai d'Orfèvres near the Pont Saint-Michel. One could draw and paint from a live model there for a modest fee. This was where Monet met the future impressionist Camille Pissarro. Later in Gleyre's studio, Monet met Auguste Renoir, Alfred Sisley, and Frédéric Bazille. Monet considered it very important that Boudin be introduced to his new friends. He also told his friends of another painter he had found in Normandy. This was the remarkable Dutchman Jongkind. His landscapes were saturated with colour, and their sincerity, at times even their naïveté, was combined with subtle observation of the Normandy shore's variable nature. At this time Monet's landscapes were not yet characterized by great richness of colour. Rather, they recalled the tonalities of paintings by the Barbizon artists, and Boudin's seascapes. He composed a range of colour based on yellow-brown or blue-grey. At the Third Impressionist Exhibition in 1877 Monet presented a series of paintings for the first time: seven views of the Saint-Lazare train station. He selected them from among twelve he had painted at the station. This motif in Monet's work is in line not only with Manet's *Chemin de fer* (The Railway) and with his own landscapes featuring trains and stations at Argenteuil, but also with a trend that surfaced after the railways first began to appear. In 1883, Monet had bought a house in the village of Giverny, near the little town of Vernon. At Giverny, series painting became one of his chief working procedures. Meadows became his permanent workplace. When a journalist, who had come from Vétheuil to interview Monet, asked him where his studio was, the painter answered, "My studio! I've never had a studio, and I can't see why one would lock oneself up in a room. To draw, yes – to paint, no". Then, broadly gesturing towards the Seine, the hills, and the silhouette of the little town, he declared, "There's my real studio." Monet began to go to London in the last decade of the nineteenth century. He began all his London paintings working directly from nature, but completed many of them afterwards, at Giverny. The series formed an indivisible whole, and the painter had to work on all his canvases at one time. A friend of Monet's, the writer Octave Mirbeau, wrote that he had accomplished a miracle. With the help of colours he had succeeded in recreating on the canvas something almost impossible to capture: he was reproducing sunlight, enriching it with an infinite number of reflections. Alone among the impressionists, Claude Monet took an almost scientific study of the possibilities of colour to its limits; it is unlikely that one could have gone any further in that direction.

History's Greatest Artists Aug 08 2020 *Includes pictures of Monet and his most famous art*Includes Monet's quotes *Includes online resources and a bibliography for further reading*Includes a table of contents"Everyone discusses my art and pretends to understand, as if it were necessary to understand, when it is simply necessary to love." - Claude Monet To get a sense of the kind of prestige that Claude Monet's reputation has within the art world, one need only learn that his *Le Bassin Aux Nymphes* (1919) - from his series of paintings featuring water lilies - sold for the equivalent of more than \$70 million. This is an incredibly staggering price, especially considering that early in his life, Monet had been so poor and debt-ridden that some of his paintings were taken from him by creditors. How, exactly, did Monet progress from being an impoverished young Impressionist artist working at the vanguard of European art to the legendary Master whose works command prices near the very pinnacle of the art world? Naturally, Monet's commercial success soared exponentially in the decades following his death in 1926, at a time in which the prices commanded by the great Masters of Western art began rising in price at exponential rates. Yet even during his own lifetime, Monet enjoyed a sharp rise to fame and was canonized as one of the greatest painters in France. Following sharply in the footsteps of Edouard Manet, Claude Monet was one of the first painters identified within the Impressionist circle (indeed, it was Monet himself who coined the label of Impressionist after using it in the title of one of his paintings). Where some artists reach the peak of their acclaim early in life, Monet's star continued to rise even throughout his old age; although some would argue that the last decade or so of his life were anticlimactic, at least from an artistic standpoint, his landmark water lilies were made during his elderly years. And even though Monet would continue to paint well after the canonical period of Impressionism had ended, his name was and remains synonymous with Impressionism, along with cherished acquaintances of his, including such luminaries as Pierre-Auguste Renoir, Camille Pissarro, and Edouard Manet. Simply put, Monet is a monumental figure when it comes to examining Western art during the second half of the 19th century. Like many other great artists, Monet's artistic style developed in tandem with the unfolding changes in his personal life and the professional relationships he maintained. His upbringing was in certain respects unremarkable (at least before the premature death of his mother), but it was during his childhood that Monet cultivated his passion for painting, and even during that time that he met certain artists who would prove instrumental in the nurturing of his prodigious talents. Whether or not Monet was the most brilliant or gifted of the Impressionists is a matter of opinion, but either way, his abilities were molded by his upbringing, his temperament and personality, his formal style, and his standing within the Parisian art world. *History's Greatest Artists: The Life and Legacy of Claude Monet* looks at the personal background that led to him becoming an artist and the cultural climate in which he rose to

fame. Monet's formal technique and artistic legacy are also analyzed, including his working methods and artistic education. Claude Monet Mar 15 2021 For Monet, the act of creation was always a painful struggle. His obsession with capturing the effects of lighting in nature was much more intense than that of his contemporaries. In his words: "Skills come and go ... art is always the same: a transposition of nature that requires as much determination as sensibility. I strive and struggle against the sun ... I might as well paint it with gold and precious stones." A beautiful display of Impressionist work, *Great Masters Monet* explores the extraordinary paintings of one of the Masters of the 19th century. Monet's rapid brushstroke style in landscapes and scenes from everyday life illustrates his overall fascination with light and colour.
